

The Paducah Evening Sun.

VOL. XXVI NO. 51.

PADUCAH, KY., MONDAY EVENING, AUGUST 30, 1909

TEN CENTS PER WEEK

LINE OF MARCH OF LABOR DAY PARADE AND THE PROGRAM

Are Completed, Assuring Biggest Celebration Paducah Ever Witnessed.

Many Floats Are Assigned Positions in Line.

WILL START FROM CITY HALL

T. A. Mills, marshal of the Labor Day parade and his aides have completed arrangements for parade as follows:

The fire department will form on Kentucky avenue, south side, with right resting on Fourth street.

The Central Labor Union, escorting the Goddess and candidates' carriage, will form on Fifth between Broadway and Kentucky avenue.

The Farmers' Union will form on the east side of South Fifth street with right resting on Kentucky avenue, followed by their float.

The Carmen will form on west side of South Fifth, right resting on Kentucky avenue.

The Machinists and Machinists' Helpers will form on north side of Washington, right resting on Fifth. The Boiler-makers and Boiler-makers' Helpers will form on south side of Washington, right resting on Fifth, with float.

The Leatherworkers will form on the east side of Sixth between Washington and Kentucky avenue, with right resting on Kentucky avenue, with float.

The Brewery Workers will form on the west side of Sixth, between Washington and Kentucky avenue, right resting on Kentucky avenue, with float.

Carpenters will form on north side of Kentucky avenue between Fifth and Sixth, right resting on Fifth.

Ship Carpenters will form on east side of Sixth between Kentucky avenue and Broadway, right resting on Kentucky avenue.

Caulkers will form on west side of Sixth, between Kentucky and Broadway, right on Kentucky avenue.

Painters and Decorators will form on north side of Kentucky avenue between Sixth and Seventh, right on Sixth.

Cigarmakers will form on east side of Seventh between Kentucky avenue and Broadway, right on Kentucky avenue.

Plumbers form on west side of Seventh between Kentucky avenue and Broadway, right on Kentucky avenue.

Typographical union form on south side of Kentucky avenue between Sixth and Seventh, right on Sixth.

Industrial floats and exhibits not attached to organizations will form on Washington, west of Sixth, and Kentucky avenue west of Seventh facing east. Floats belonging to organizations will move with their crafts.

The Parade.

The column will move at 10 a. m. sharp, from the city hall, in the following order:

Deal's Band.
Platoon of Police.
City Fire Department.
Goddess and Candidates in carriage.

Central Labor Union.
Farmers' E. and C. Unions with floats.

Carmen of America.
Machinists.
Machinists' Helpers.
Boiler-makers and float.
Boiler-makers' Helpers.
Carpenters.
Ship Carpenters.
Caulkers.

Leatherworkers and float.
Breweryworkers and float.
Painters and Decorators.
Cigarmakers.
Electrical Workers.
Plumbers.

Typographical Union.
Industrial display of floats.

Line of March.

The line of march will be from the city hall on Kentucky avenue to First, on First to Broadway, on Broadway to Ninth, and counter-march to Fourth and Broadway, and disband.

Any local or body not assigned that will turn out, is requested to notify the committee or marshal and will be assigned place.

At Wallace Park.

Speaking at the park by the Rev. Robert Johnson, president of the Farmers' E. and C. Union, at 1:30 at the band stand.

Baseball—C. C. and W. vs. B. P. O. E. club, 3:30 p. m. at League park.

Dancing, swimming, boating, all afternoon and evening.

Continuous vaudeville afternoon and night at Casino.

Other amusements and games all the time.

Plenty of refreshments and barbecue on the grounds.

Chicago Street Car Strike Again Seems Imminent, Since Union Men Refuse Compromise Terms

Propose Last Conference Late This Afternoon, But Prospects Are for Tie-Up of All Surface Lines in City.

Chicago, Aug. 30.—After outright refusing all offers of the traction companies, the union officials are in conference. The president said they will meet them the last time at 3 this afternoon. It is the last chance, if all are not raised in pay, the most to thirty cents an hour, a strike will be proclaimed immediately of all men in the city.

Negotiations between representatives of the unions and the presidents of traction companies in an effort to avert a strike were broken abruptly this noon. The unions refused point blank to accept the compromise wage scale offered last week, and followed by refusing to arbitrate their differences. The strike may now be said to be a certainty.

CURTISS WILL GO TO PARIS WHERE WILL BE DINED

Rheims, Aug. 30.—Having won three events, and a total of \$7,000 prize money, Curtiss has gone to Paris to be the guest of Ambassador White at a dinner before returning to New York. He is flooded with invitations and probably will decline all. He probably will sell his "Golden Flier" as he has many flattering offers. Sunday he won the Prix de la Vitasse, going three laps in 23 minutes and 20 seconds, but was penalized one tenth his time. Latham won the prize for height, rising 508 feet; Farman was second and Paulhan third. Farman won the passenger contest, carrying two in 10:39, one in 9:52 4-5. Farman showed the most durable machine on the course, winning all endurance events. Nearly all aviators have left here, which has become famous in a week.

Wright Makes Flight.

Berlin, Aug. 30.—Orville Wright made the first test flight today in his bi-plane. He flew fifteen miles over Templehof grounds. He will give a public exhibition Thursday.

Boy Drowns at Covington.

Covington, Ky., Aug. 30.—John F. Kreimer, aged 16, son of Mr. and Mrs. Henry Kreimer, of 1518 St. Clair street was drowned while swimming in the Licking river. He started for Sunday school in the morning and was not seen by his parents again until his body was brought home several hours later. Residents of the section where he met his death say he was drowned shortly after 1 o'clock.

Attempt to Wreck Train Near Bardwell

Fulton, Ky., Aug. 30. (Special.)—An unsuccessful effort to wreck the Illinois Central passenger train was made Sunday night near Bardwell. The cars bumped on the ties, but little damage done.

Grain Company Assigns.

Fulton, Ky., Aug. 30. (Special.)—The Hardy Grain company, of Union City, assigned. The liabilities are \$150,000 and assets \$100,000.

CHICAGO STREET CAR KILLS TWO

FOURTEEN PEOPLE HURT IN WRECK; SEVEN SERIOUSLY.

Chicago, Aug. 30.—Fourteen were injured, seven seriously early today when a crowded street car overturned on a curve, on Twelfth street. Two will die. William H. Jones, 39, is bleeding to death. He cut an artery. Abraham Goodman's skull was fractured and he has internal injuries. The car was packed with people standing in the aisles. There was an excavation on the side of the track and the car plunged into it. Fourteen were taken to hospitals.

ACCIDENT IN AIR.

Berlin, Aug. 30.—Zeppelin's propeller flew off cutting the gas bag and a catastrophe was averted by the compartment construction of the gas bag. The airship is now at Burleigh repairing on the return journey from Friedrichshafen. The count was not aboard. The ship traveled only sixty miles when the accident happened. She was to exhibit to Emperor Franz Josef, of Austria, at Lindau tomorrow.

DEATH FOILED MOTHER THRICE

Deadwood, S. D., Aug. 30.—Mrs. Lena Henderson on a ranch near Sundance, Wyoming, left two children in the house, when she took her baby with her to a well to get water. When she reached the well she heard the other two in the house screaming. Leaving the baby she rushed indoors just in time to see a tremendous rat. She rushed to the well and found it had fallen in. She went down in the well and pulled out the baby dead. Then she rushed indoors and saw the other two die.

The Weather

Sunday was one of the most pleasant if not the most enjoyable day of the summer and the north wind brought a steady breeze, which was much relief to the sweltering population. The sun's heat was broken by a partially clouded sky and hundreds were out early in the afternoon for drives through the country. The river was speckled with motor boats and pleasure seekers were out in droves. Sales of camera and kodak films indicate that many were out taking snap shots in both the city and rural districts. The thermometer never went any higher than 87 degrees, which was registered by the government mercury. Last night was cool and wraps were comfortable in the evening. Bed coverings were comfortable during the night. This morning broke cool and bracing and the lowest temperature was marked at 65 degrees. The highest temperature for today was 86.

The Forecast.

The forecast for Paducah and vicinity is: Fair tonight and Tuesday; Fair Monday and Tuesday; rising temperature Tuesday; light to variable winds.

Sun rose today.....5:24 a.m.
Sun will set today.....6:38 p.m.
Moon will set tonight.....4:17 a.m.

THIS ORDINANCE HAD HARD TIME AND NOT GOOD YET

Was Never Sent to the Mayor For His Approval After Its Passage.

Last Time It Was Prematurely Enacted.

CITY HALL AND FIRE STATION

When City Solicitor James Campbell, Jr., asked the city clerk for the ordinance, authorizing the improvement of the alley from Meyers street to Farley street, between Farley and Clements street, in order to prepare a contract for the work under instructions of the board of public works, he found that the ordinance never had been submitted to Mayor Smith and it is void. The ordinance should have been signed by Mayor Smith within 20 days after its enactment, otherwise it is considered voided. The ordinance was passed August 8 and never had been sent down to the mayor. This ordinance had a hard time. It was first enacted by the general council and approved by the mayor; but the solicitor discovered it had been submitted to the board of aldermen for passage within two weeks after its enactment by the board of councilmen, which invalidated it. It went back again, and this time went through without the mayor's signature. The board of public works, being informed that the ordinance had passed, secured bids and let the contract. The ordinance will have to be passed again.

City Hall Work.

Bids for the new central fire station to be located on the site where now stands the city engineer and street inspectors' office will be received tonight in special session of the joint finance and public improvement committees at the city hall.

Stacks of bids for the job have been received by Architect A. L. Laster and it is believed that every contractor in the city has sent in his figures for the work. In this case the figures should run about equal, as there is strong competition. The plans and specifications for the building were adopted by the committees two weeks ago and the new station will be commodious and modern in every respect with every convenience.

Work on the third story addition of the city hall will begin soon, the contract for the work having been awarded to Jack Cole, the lowest bidder. Immediately after the letting of the contract for the fire station work of tearing away the present building will begin and excavations made. The firemen at Central station probably will not be able to get into the new building before the first of the year, as the construction of the new station is no little task.

Arrangements are being made for the sale of the present fire station on North Fourth street and the city hopes to realize a sufficient amount of money in the disposition of the property to care for the expense of the new station. It is believed the property will bring something near \$10,000.

The city officials are anxious for the immediate beginning of the two improvements so that they will be well housed in by the time cold weather starts.

Yosemite Trees

**ARE THREATENED
BY FOREST FIRES**

Yosemite, Cal., Aug. 30.—A forest fire, resembling a sheet of flame ten miles long, is now eating its way towards the great grove of mammoth trees in the Yosemite, which for years has been the mecca of tourists and it is feared the thousand-year-old monarchs of the forest in Mary Prosa, Sequoia and Morced groves are doomed. Government troops are "back-firing" in an effort to keep the blaze away. Already thousands of acres of great forest land are burned. The damage is tremendous in money, and more from the view point of nature lovers.

Yosemite Trees

**ARE THREATENED
BY FOREST FIRES**

Yosemite, Cal., Aug. 30.—A forest fire, resembling a sheet of flame ten miles long, is now eating its way towards the great grove of mammoth trees in the Yosemite, which for years has been the mecca of tourists and it is feared the thousand-year-old monarchs of the forest in Mary Prosa, Sequoia and Morced groves are doomed. Government troops are "back-firing" in an effort to keep the blaze away. Already thousands of acres of great forest land are burned. The damage is tremendous in money, and more from the view point of nature lovers.

Car Hits Auto—1 Dead.

Bloomington, Ill., Aug. 30.—Samuel Mosiman, a grain dealer of Morton, was killed and his brother, Joseph, probably fatally injured today when their automobile was struck by an interurban car near Morton.

Friends and Foes Battle.

Brookhaven, Miss., Aug. 30.—Friends of Robert Woodhall, charged with assaulting Myrtle Neal, 12 years old, made an ineffectual attempt this morning to take him from the county jail. Those sympathizing with the child's father met them in a hand to hand encounter. Pistols and knives were used and eight were wounded. While the battle was at its height, troops took Woodhall to a special train and hurried to the Jackson state penitentiary.

Reports From Monterey, Mexico, Did Not Exaggerate Conditions That Exist in Flooded District

More Than Thousand May Have Been Drowned and Property Loss Mounts Into Millions—Much Distress.

Monterey, Mexico, Aug. 30.—Falling almost as rapidly as it rose, the Santa Catarina river is now within its banks. Rescue parties are rescuing dead bodies from the deluge of Friday and Saturday and Sunday. It is declared probably 1,200 are dead. The rain stopped Sunday. Pestilence is feared. Santa Catarina ordinarily is only a creek. The flood made it more than two miles wide. The federal government is sending relief to the stricken city. Troops are on their way to prevent looting in the flood swept districts.

APPEAL FOR AID.

Washington, Aug. 30.—An appeal from the officers of the Association of American colonies at Monterey for victims of the flood disaster was sent to the state department today by Consul General Hanna. He says several hundred are dead and hundreds are homeless. Every person in Monterey has suffered some loss. The appeal calls attention to the fact that Monterey, a city of 100,000, does \$5 per cent of its trade with the United States. The appeal was turned over to the Red Cross society.

Not Exaggerated.

Laredo, Tex., Aug. 30.—The flood in Monterey has not been exaggerated. Chaotic conditions exist and thousands of homeless are uncared for. The loss of life is variously estimated at from 400 to 1,000.

Semi-official advices state that 400 cadavers have been recovered. The financial damage will aggregate fully \$5,000,000.

Rumor places the money loss at anywhere from \$2,000,000 to \$12,000,000.

Appeals for aid have been sent out to the citizens of the United States.

Washouts have completely blocked traffic on the National railway and there are trains in either direction between Laredo and Saltillo.

Wire communication is still uncertain.

In City of Desolation.

Last night in Monterey was one of death, desolation, darkness and sorrow.

The flood waters of the Santa Catarina river continued on their rampant course throughout the night, and to add to the horror of the situation the rain again commenced to fall and caused untold suffering to the thousands of homeless people who had congregated on the various plazas, their only homes in the extreme emergency.

The destructive flood, due to the continued fall of rain for the past 96 hours, swept everything before it, and hardly a vestige is left of what was a few days ago a conglomeration of small huts swarming with families belonging to the poorer classes. The loss of life, which can not be accurately estimated for days, perhaps weeks to come, was among the poorer classes, and is variously placed at from 400 to 1,000 souls.

Flood Reaches Apex.

The crest of the flood reached its apex in the early hours of the morning, between 1 and 3 o'clock, and ynam ailmf 1234568dayadplaced..C many families were swept away to a watery death with hardly a chance to fight for their lives. With the onrush of waters pandemonium reigned, and as the poor wretches were swept from their homes, on the tops of which many had sought shelter, never for a moment anticipating that the water would reach an unprecedented height, pitiful appeals for assistance could be heard rising above the roar of the onrushing waters by those on higher ground, but who were powerless to render aid of any kind.

Every effort was made by the kind hearted citizens to shelter the women and children. Their homes were thrown open to the sufferers; the police station, many of the hotels and private clubs as well as the rooms of several organizations were placed at the disposition of the authorities and for the greater part the

Friends and Foes Battle.

Brookhaven, Miss., Aug. 30.—Friends of Robert Woodhall, charged with assaulting Myrtle Neal, 12 years old, made an ineffectual attempt this morning to take him from the county jail. Those sympathizing with the child's father met them in a hand to hand encounter. Pistols and knives were used and eight were wounded. While the battle was at its height, troops took Woodhall to a special train and hurried to the Jackson state penitentiary.

CLASSICS RULE IN COUNTY HIGH SCHOOL COURSE

Educators Express Surprise That Sciences Do Not Figure Extensively.

More Stress On Dead Languages Than in City.

TRUSTEES EXPRESS VIEWS

Following the publication of the course of study for the new county High school considerable comment upon the curriculum has been made. The course contains more classical studies than the Paducah High school. When the question of establishing a new High school or of the county furnishing free tuition to the county pupils in the city High school was discussed, one of the strongest arguments against the city High school was the classical course, although every year the scientific course is being made stronger. In the county school especial attention will be paid to Latin, while Greek will be taught, but only one year of German. Astronomy will also be taught, although there is practically no equipment.

Trustees W. R. Davis this morning said that he thought the course of study was entirely too classical for the needs of the county schools, and said he would like to see subjects relating to agricultural subjects and farm life taught. Superintendent J. A. Carnagey, of the city schools, has studied the course, and this morning said: "I believe that the county children ought to have just as good an education as the city children, but good along different lines. The county schools should be just as good as the city, but the course of study should emphasize the study of the sciences, such as botany, zoology, biology, chemistry of the soil, and physics, making each as practical as possible. The girls should study domestic science, although I think a proper amount of classical work should be given; but it should be made secondary to the sciences. The aim of the education in the county schools should fit the children for rural life and lift up the farm life rather than to encourage them to leave the country for the city."

"I would advocate that arithmetic, geometry and algebra be taught an introduction to literature and American and English history. There should be no necessity for making the course mainly classical, as I think an arrangement could be made easily whereby any county student, intending to enter college, where a classical course is necessary for entrance could be taught in the city High school, with the county paying the tuition."

Examiners Finish.

The board of examiners of the city schools has completed its work. In addition to the teachers getting certificates announced Saturday, Miss Elizabeth Graham was granted a High school certificate. Lurena Hamilton, of the colored teachers, was granted a certificate. She was an honor pupil of the class of 1908, and last year took post-graduate work.

It is intended that the city schools shall be more sanitary this year than ever before. The janitors the last of this week will clean the buildings thoroughly. Thursday evening at 7:30 o'clock a meeting will be called for the janitors at the High school. Dr. H. P. Sights, city health officer and Superintendent Carnagey will instruct the janitors on the necessity and method of a thorough cleaning.

Supt. Middleton.

County School Superintendent S. J. Billington resigned Saturday and last night he and his wife left for Montana, where they will locate. County Judge Lightfoot immediately appointed W. A. Middleton to fill out the unexpired term.

R. K. D.'s Win Twice.

The R. K. D. baseball team was victorious in two games yesterday defeating the Union Drug Store team at League park yesterday morning by a score of 11 to 1, and winning from the T. T. T.'s in the afternoon by a score of 8 to 7. The batteries for the R. K. D.'s were: English and Tinsler, while those for the Union Drug Store team were: Hilde and Gilliam.

That Incubator Baby Case.

Kansas City, Aug. 30.—Habeas corpus proceedings by which Mrs. Barclay and Gentry hoped to escape their return to Kansas to face charges in connection with the kidnapping of Martin Bleakley, the ex-incubator baby, came up in court today. In case the order is not set aside they will be taken to Topeka today.

EASTWARD RECORD.

Queenstown, Ore., Aug. 30.—Cutting two hours and 53 seconds from own eastward Atlantic record the great Cunarder Mauretania arrived here this morning, making the run from New York in four days, 14 hours and 27 minutes. The best previous record was when she landed here August 5, after a run of four days, 17 hours and 20 minutes.

women and children were cared for.

Many Sleep in Open.

However, many of the men were compelled to sleep in the open in the various plazas. Both Zaragoza and Hidalgo plazas were alive with people throughout the night and a vast throng congregated in this vicinity, which is on high ground, in order to witness the rampage of the miniature Niagara as it swept onward after completing its work of destruction.

Already many bodies have been recovered, but it is impossible to accurately state the number. It is learned from a semi-reliable source that the police records show that 400 bodies had been recovered up to noon today. Yet scores upon scores are still to be found at various points along the stream, lodged, and it may be weeks before they are recovered. Many will never be found.

Pitiful scenes are reported among the women and children. Many women have been separated from their husbands, mothers from their children without knowledge of the whereabouts of one another and scenes of the most profound grief are witnessed on all hands, as mothers, husbands and children lament for their loved ones.

River Cuts New Path.

At 11 a. m. Sunday the rain was still falling and to add to the disaster the Santa Catarina river had worked out for itself a new channel, dividing into two raging streams and separating in such a manner that another and modern constructed part of the town was threatened.

It was said that warning had been sent out to many of the hotels and business houses throughout the very center of the city to be prepared for the worst and to take preventive measures.

This warning would not necessarily mean that there would be any loss of life, but that the first floors of the various buildings might be flooded and entail a large financial loss on stocks of merchandise, etc.

The modern portion of the city is considered to be high enough to escape the ravages of the flood, but in view of the fact that the rise of the waters has been unprecedented it has been considered the better part of discretion to at least warn all threatened territory.

Damage Inestimable.

It is thought that the damage will be far in excess of first estimates as sent out in last night's report. The Monterey Smelter, one of the largest smelters in Mexico, suffered a loss by water, from the deluge of rain and

(Continued on Page Four.)

GOOD NEWS FROM HARRIMAN HELPS HIS U. P. STOCK

Turners, N. Y., Aug. 30.—From the spirit confidence around Tower Hill it seems as if the operation is already successful or an examination shows that the operation necessary is only minor. Dr. Lytle was reached by telephone today. He was asked whether Harriman was operated upon and said, after long hesitation, "You will have to go 120 Broadway for information."

The Harriman family attended church on the estate yesterday. It is almost certain Harriman will turn over at least a majority of his interests to Lovett, Kruttschmidt and Lorse, who will tutor Young Averill Harriman, who eventually will command all. It was learned today Harriman has a special cook to see that all food is correct. The optimistic news of Harriman bolstered up the stocks, especially the Union Pacific.

Some sources of information declare that Harriman has already undergone an operation. It was bloodless and highly successful. It is reported instead of malignant cancer he has hardening of the spinal column, threatening paralysis. It is said his doctor massaged the vertebrae severely and then a plaster cast gave immediate relief. It is still impossible to get the immediate family or the physicians to say anything.

SLOW PROGRESS FOR BIG FIGHT

JEFFRIES AND JOHNSON ARE
PUZZLING PROMOTORS.

Langford May Be Favorite Over
Ketchell—Latter to Meet
Johnson Next.

OTHER PRIZE RING NOTES

New York, Aug. 30.—Sam Berger does not seem to be making much progress in arranging the proposed Jeffries-Johnson fight. Samuel is on the Pacific coast now and is awaiting Jeffries' reply as to the different offers for a purse for the big fight, which have so far come in. The offer of Hugh McIntosh of \$50,000 for the big scrapers to go to Australia is not likely to be accepted. Friends of Jeffries say that the big boiler-maker would not consent to go to Australia even for a \$100,000 purse, but one hundred thousand cold millions is a lot of money, and Jeff might think twice before turning down such an offer. However, if the Australian promoter can see his way clear to offer that sum, it is not with the range of possibility that James Coffroth of Colma would go him one better.

There are only two states in the Union where a finish fight can be pulled off—California and Nevada. Should Coffroth be unable to raise a purse of such dimensions there is no doubt that the promoters of Ely, Goldfield, or some other of the wild and woolly Nevada mining camps can quickly raise such a sum.

Can't Locate Forfeit.

Did Jack Johnson, deposit that \$5,000 which it was reported a few weeks ago he did in Chicago, to cover the \$5,000 deposited by Jeffries with a sporting editor of New York? That is the question fight fadism is asking, and no one so far has been able to answer. When the big black arrived on the coast he announced that his \$5,000 was on deposit in New York. Diligent search has failed to reveal even five cents deposited by Johnson. Johnson several months ago deposited \$5,000 to meet Ketchell with a sporting writer but withdrew that amount, and there is no record of Johnson ever having again deposited that money.

It is possible that Johnson has tucked the wily Berger and that Sam thought was good money, deposited at the time of their meeting in Chicago, had a string to it, and has already been taken down to pay some of the numerous fines incurred by Johnson in his arrests for speeding in his auto in different parts of this country and Canada.

Busy Times for Ketchell.

Stanley Ketchell, who has not left Frisco after all, says that he will come east in a day or two and will be

ready to fight Sam Langford at the Fairmont A. C. on Sept. 17; also that he will insist upon catch weights. Ketchell declares that he needs but two weeks or so at Woodlawn to put himself on edge for Langford and predicts with unconcealed confidence that he will win decisively.

After the Michigan declares that he will hurry back to the coast, where he will have three weeks to prepare for the Johnson mill, Ketchell's dilatory tactics have not increased the confidence of the local sporting public and it is the prevailing opinion that if he actually gets into the ring, even on Sept. 17, Langford will rule the favorite.

Promoter is Puzzled.
Hugh D. McIntosh, the Australian fight promoter has sailed for England. He came here for a sole purpose of making an offer of a \$50,000 purse for the proposed Jeffries-Johnson battle. McIntosh stated that he had spent ten days vainly trying to find out where bids for the fight would be received, the date on which bids would close, the amount of the forfeit required from promoters and with whom the money should be posted.

He also declared that he had written a letter to Jeffries asking for the desired information and had authorized Steve T. King of this city, to make a bid and post a forfeit in his absence. It was evident that the Australian was puzzled by the attitude of Jeffries in not clinching a match with Johnson without so much tiresome delay.

Revolts at Cold Steel.

"Your only hope," said three doctors to Mrs. M. E. Fisher, of Detroit, Mich., suffering from severe rectal troubles, "lies in an operation, then I used Dr. King's New Life Pills," she writes, "and I'm wholly cured." They prevent Appendicitis, cure Constipation, Headache, 25c at all drug stores.

Prolific Pheasants.

It is reported that the whole of Vancouver Island is now well stocked with pheasants which have long been thoroughly acclimated and breed freely. The history of pheasant acclimatization in Vancouver is simply itself. In 1883 C. W. R. Thompson, of Victoria, imported 25 birds from China, kept them in captivity till young had been hatched out and set all at liberty as soon as the chicks were strong enough. In 1886 Mr. Murgrave imported 11 more birds and turned them out, and from these 36 pheasants the whole of Vancouver and many of the adjacent islands have been stocked. —Bailey's Magazine.

Pale Delicate Women and Girls.

The Old Standard GROVE'S TASTELESS CHILL TONIC drives out malaria and builds up the system. For grown people and children, 50c.

Injured Autoist Dies.

New York, Aug. 30.—Laurent Grosse, driver of a Stearns car, who was injured in a 24-hour race at the Brighton Beach motordrome Friday died today. Leonard Cole, his mechanic, was instantly killed. Grosse's back was broken and the spine shattered.

EAGLES COULDN'T HIT M'CHESNEY

AND ELKS DEFEATED THEM 11
TO NOTHING.

Elks Played Almost Faultless Game
and Were Steady at All
Times.

WALLERSTEINS TAKE A GAME.

The Brookport Eagles were unable to hit McChesney yesterday afternoon and thereby hangs the tale of a victory for the Elks by a score of 11 to 0. While the Elks were applying the coat of whitewash the game was a trifle slow in anticipation of what the fans had expected from the Brookport team. Rush officiated for Brookport and whipped 'em across with steam, but his support was faulty as the Brookport lads booted more than one ball.

The Elks played a steady, consistent game, and were never in danger of losing the contest. McChesney was in good form, and his big rain-bow outs proved especially tempting to the Illinois boys. Chief Lloyd was the star with the stick yesterday as his batting record was like staircases. The veteran landed out a single, a two base and a triple, and the fans expected him to drive in a homer had he had another turn at bat.

Steele, the Brookport catcher, injured his hand in the eighth inning, and it was necessary for him to retire. The game was already won and his departure did not cripple the team. Until the seventh inning McChesney had not allowed a hit, and only one safety was made off of him.

Score: R H E
Elks 11 9 1
Brookport 0 1 6
The teams lined up: Elks—Albritton, c; McChesney, p; Lloyd, 1b; Groves, 2b; Hill, 3b; Goodman, ss; Williams, lf; Sutton, cf; Donovan, rf. Brookport—Steele and Linn, c; Ruch, p; Williams, 1b; Woodworth, 2b; Johnson and Steele, 3b; Rehmeyer, ss; Scarlock, lf; Jusby, cf; Johnson, rf.

Wallersteins Victorious.

By another batting rally in the ninth inning the Wallersteins defeated the crack La Center team yesterday afternoon by a score of 11 to 8. Until the ninth inning La Center boys had the score 8 to 7, but in the ninth the Paducah boys got busy with the clubs and swatted in a nest of four runs and won the game. The game opened at the first of the season. Elliott twirled most of the game for La Center, but in the seventh inning was struck on the left arm by a batted ball, and retired in favor of Eaker, who finished the game. Wand pitched for La Center and did creditable work until the final round when he weakened, and coupled with bad support lost the game. Elliott and Carroll lined out a two batter each, while F. Shaw and A. Stratton did the same trick for La Center.

The teams lined up: Wallersteins H. Mercer, c; Elliott and Eaker, p; Herring, 1b; Carroll, 2b; Ford, 3b; Eaker, ss; Beck, lf; Gallagher, cf; Sanders, rf. La Center—Jones, c; Wand, p; F. Shaw, 1b; B. Shaw, 2b; Webb, 3b; Feast, ss; R. Stratton, lf; Calvin, cf; A. Stratton, rf.

Wellies Lost.

In a slugging match yesterday morning the B. B. Hooks defeated the Wellies by a score of 9 to 7. Both teams hit the pitchers hard and the fielders had plenty of work. Council pitched for the Hooks while Hanners was in the box for the Wellies.

HIDDEN DANGERS.
Nature Gives Timely Warnings That
No Paducah Citizen Can Afford
to Ignore.

DANGER SIGNAL NO. 1 comes from the kidney secretions. They warn you when the kidneys are sick. Sick kidneys excrete a clear, amber fluid. Sick kidneys send out a thin pale and foamy, or a thick, red, film-forming urine, full of sediment and irregular of passage.

DANGER SIGNAL NO. 2 comes from the back. Back pains, dull and heavy, or sharp and acute, tell you of sick kidneys and warn you of the approach of dropsy, diabetes and Bright's disease. Doan's Kidney Pills cure sick kidneys and cure them permanently. Here's Paducah proof: Tony Schaeffer, 422 S. Ninth street, Paducah, Ky., says: "The hard work I have done together with excessive stooping, no doubt was the cause of my kidney complaint. There was a constant dull pain in the small of my back and across my kidneys and my whole body was often lame and sore. My kidneys were also very weak and the secretions passed too frequently. After having taken various remedies without getting relief, I saw Doan's Kidney Pills advertised. I obtained a supply at The List Drug Co. and to my delight the first few doses brought me relief. I continued taking this remedy, I steadily grew better and every symptom of my trouble was finally removed. Doan's Kidney Pills are worthy of endorsement."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

defeated St. Louis without much difficulty. The score of 5 to 2 was mainly due to the frequency with which the visitors connected with Waddell's curves.

Game Opened With Sermon.
Minneapolis, Aug. 30.—For the

her own oven.

But the baker's side of the problem is also to be considered. The prices of his products are so well established that economy in production is a good deal easier than a material increase. True, he has been able to make certain increases, which have caused much grumbling at his counters, but for the most part he has contented himself with selling a smaller quantity and poorer quality for the same price. Nor is he wholly to blame for this.—Indianapolis News.

New York Men Athletic Stars.

Chicago, Aug. 30.—Martin Sheridan, of the Irish American Athletic club, of New York, and Mart McGrath, of the New York Athletic club, were the stars of the annual track and field meet of the Chicago Gaelic Athletic association. Sheridan won the meet by scoring 14 points. McGrath scored 13. A crowd of 15,000 persons was present.

Sheridan won the three standing broad jumps and the discus throw, took second in the running hop, step and jump, and third in the hammer throw. McGrath won the hammer and 56 pound weight throws and second in the discus throw.

J. T. Amour, of the First Regiment Athletic association, won the 12 mile Marathon race in 1:15:51.

"And that young man kissed you on the lips? Why didn't you offer him your hand?" said the father.

"Oh, I didn't have to, papa," said the girl; "he's going to ask you for that!"—Yonkers Statesman.

first time in the history of professional baseball, the game which Minneapolis won from Kansas City, 8 to 0 was opened with a sermon by Rev. G. L. Morrill, of this city.

Died While Cheering.
Chicago, Aug. 30.—Cheering for a player who knocked a home run in a practice game caused the death of Robert Myers, aged 65, who expired as the result of heart failure.

Million Fans Will See Games.

Madison, Wis., Aug. 30.—The University of Wisconsin baseball team left here recently for Japan, where it will play a series of baseball games during the latter part of next month with Keio university of Tokyo. The team is in charge of Dr. Charles McCarthy, the famous football coach and gridiron officer, who will act as faculty representative. This is the longest trip that an American college baseball team has ever undertaken. The team sails from Seattle August 31.

There is little feeling of confidence among the Wisconsin students as to the outcome of the games. Keio university is reported to have a strong team, that continually defeats teams made up of men from United States warships. Yet the fact that Wisconsin has been selected by the Japanese authorities as the team to make the trip gives great pleasure here.

An interesting trip is what is expected. There have been many Japanese students at Wisconsin, and many have received their doctor's degrees here. Of these Professor Reinisch is in correspondence with several, and he himself will go to Japan this fall to study oriental politics. He has received considerable information about the Keio ball games, and reports that the Wisconsin team may expect to play before 100,000 persons at some of the games. This will probably be something that no college athletic team of any kind has ever done before.

Despite the fact that such large crowds attend ball games over there, Keio university was able to guarantee only the actual expenses of 16 men. This is due to the fact that the price of admission is very small, and with probably a million persons seeing the 10 games that will be played the authorities of the university expect to receive only from \$3,500 to \$4,000. The latter figure will just about cover the Wisconsin team's expenses and \$1,000 has been advanced by the Wisconsin alumni.

BAKERS' PRICES HIGHER.

Even the Coffee Cake Shows the Increased Cost of Living.

The housewife who now goes to the corner bakery to get some of the things it is too much effort to bake at home during the hot weather comes back with more than one complaint. The trouble is not only that things cost more than they formerly did, for she has in a measure got used to that from experience and rather expects a little sliding scale increase in price from time to time. But, burdensome as that is on her weekly household allowance, it is not all. Not only are the bakery's products smaller in size, but she insists they have deteriorated in quality. A policy of economy in eggs, sugar and butter has revised cake downward, until it is little more than bread. Especially lacking in coffee cake, for instance, is that peculiar mellow color and toothsome consistency which nothing but the ample use of eggs will give. In outside appearance it has all the charm of less high-priced days, but inside it may be said to be pale, flat, and unprofitable to the buyer. Perhaps it is as digestible as ever, but it can hardly be so nourishing with the lack of those eggs which formerly added to its nutriment, and certainly it is not so good to eat and so there are complaints and protestations at the family board, and declarations on the housewife's part that she will go back to the product of her own oven.

Tramp (outside of the gate)—Madam, may I ask does your dog bite?
Mrs. Jay (in the garden)—Yes, he does; and please don't come in. We are very particular about what we feed him on!—San Francisco Examiner.

W. A. BERRY
TIPPED FOR CHAIRMAN AT THE
OWENSBORO CONVENTION.

Lawrence B. Finn, of Franklin
County, Gets All Instructions
for Job.

Lawrence B. Finn, of Franklin county, will be the Democratic nominee at the First district Democratic railroad convention at Owensboro, Wednesday, to select a candidate to succeed the late McD. Ferguson. W. A. Berry, of this city, is tipped for chairman, by the knowing ones of the district. Ab Rhea, of Russellville, will call the convention to order.

All delegates instructed at county conventions were instructed for Mr. Finn and no opposition is anticipated.

The counties vote as follows:
Ballard 11, Caldwell 8, Calloway 15, Carlisle 8, Crittenden 7, Fulton 9, Hickman 9, Graves 25, Livingston 6, Lyon 5, Marshall 9, McCracken 21, Trigg 8, LaRue 7, Ohio 14, Meade 6, Hart 9, Monroe 4, Christian 16, Davies 26, Hancock 4, Henderson 1, Hopkins 12, McLean 7, Union 17, Webster 12, Allen 7, Barren 16, Butler 5, Edmonson 4, Logan 16, Metcalf 5, Muhlenberg 13, Simpson 9, Warren 19, Todd 10, Breckinridge 10, Grayson 9, Hardin 15. Total 435.

Clothes of Artists' Wives.

When the Society of American Artists of the National Academy of Design holds a reception it is always interesting to a sartorial observer to pick out the women whose husbands have designed their costumes.

Some of the wives with artistic husbands plainly do not care for color or line and come out in the latest fashions. Then there are others whose gowns show evidences of planning in which the apostle has had a finger-regarding the tint of the fabric or the way it is fashioned.

Some of the women one sees at these exhibitions trail about in artistic and soulful robes which look as though plucked from an unwilling Botticelli angel and become slightly strained in the fray. Very charming are other of these artistic draperies even though they lack the perfection of finish and trimness which in fashionable life is regarded as the height of sartorial fashion.

MOST IMPORTANT GRIDIRON GAMES

PENNSYLVANIA WILL BE FIRST TO OPEN THE SEASON.

List of Battles Between the College Elevens Which Will Attract Attention.

IN THE EAST AND THE WEST

Philadelphia, Aug. 30.—With the coming of September comes a new sport to claim the attention of the college world. From now on football will divide with baseball the center of the stage until the arrival of winter snows. While the schedules of the big universities do not start for some three or four weeks

yet every one of these institutions will begin the coming week either to practice or plan for it.

The day of secret practice has gone, though there is just as much preliminary training now as ever. Yale has had most of her promising players at work singly or in groups throughout the summer. In fact, when the college year ended some 30 footballs were handed out to various players, with suggestions as to the kind of work they should do during the summer months. There was a time when such things were done secretly, but college men have outgrown such foolishness now.

What Yale has done nearly every big university in the east has done in one way or another. The competition for places on a big football team is so keen now that a man who expects to make it in the fall knows that he must keep in a condition of semi-training throughout his vacation. This is done in various ways. Some practice with footballs, others do manual labor and others act as life guards. The chances of a player nowadays losing through the summer and presenting himself for preliminary practice many pounds overweight or otherwise far out of condition are almost "nil," unless he is possessed of unusual ability in other ways.

In the east the college world is interested in the fortunes of six big universities. The limitation of Columbia from the football map and the rise of Dartmouth have made the "Big Six" once more intact. The other members of this sextet are still Harvard, Yale, Pennsylvania, Princeton and Cornell. There are other colleges in the east which cut a wide swath in intercollegiate football, but they are not of the same class as those already mentioned.

Although there is no intercollegiate association with a round robin schedule the chances for a determination of the intercollegiate championship are much better this year than last. Last year the honor of being first lay between Harvard and Pennsylvania, but as they did not play each other and met but one common opponent, the Indians, in preliminary games, the issue had to be fought out verbally. Had Cornell played Harvard last fall, as she will do this year, there would undoubtedly have been

something tangible with which to settle the controversy. This year Harvard plays Yale, Dartmouth and Cornell, Yale meets Princeton and Harvard, Princeton plays Dartmouth and Pennsylvania meets Cornell. This schedule is almost as good as a round robin, and surely ought to leave some team with the championship proved.

In the middle west the old conference combination, "The Big Nine," has not been fully restored, and will not be until the University of Michigan returns to the fold. This Michigan shows no disposition to do, although the Wolverines have stolen a march on the rulers of the conference by arranging a game with the University of Minnesota. The rulers of the conference thought a few years ago that they had completely ostracized Michigan from the west when the Michigan delegates refused to swallow some of the foolish legislation worked out by the conference professors during those days of hysteria four years ago. But this year Michigan has secured a game with Minnesota, which should go far toward determining the standing of Michigan in Western football.

Otherwise the conference colleges still consist of Chicago, Wisconsin, Minnesota, Illinois, Indiana, Purdue, Iowa and Northwestern. There have been several efforts on the part of Nebraska to take the place vacated by Minnesota. But Nebraska is not yet ready to subscribe to all the eligibility requirements in the conference code and is still a free lance in western football. Nebraska has been urged often to enter the Missouri Valley combination, but regards herself as too important for such an organization.

There will be even more intercollegiate football than there was last year. The University of Pennsylvania and Michigan meet for the fourth time, while Chicago and Cornell play their second annual game, this time at Ithaca. Michigan and Syracuse also play again, their game taking place at Ann Arbor. Another unusual intercollegiate game scheduled is that between Illinois and Syracuse in the latter's stadium. With so many intercollegiate games between such important colleges there ought to be no difficulty in deciding which section plays the better football.

On the Pacific coast American college Rugby is confined almost entirely to Oregon and Washington, with a few teams in the states adjoining them on the east. The elimination of the game at Leland Stanford and the University of California has almost killed Rugby football in this coast state. Its place has been taken by association football and English Rugby. And what the big universities of the state do the schools are sure to follow. The result has been to make the college game unpopular in the state.

In the east the University of Pennsylvania is the first of the big teams to get under way, the Quakers opening their season with a game against Gettysburg September 25. The Quakers are obliged to start earlier than usual because they have the heaviest schedule of any of the eastern teams.

What look to be the championship games of the east are on November 6, when Cornell plays Harvard and Princeton meets Dartmouth; November 13, when Yale plays Princeton and Pennsylvania tackles Michigan; November 20, when Harvard plays Yale, and November 25, when Pennsylvania and Cornell meet. The following schedule shows in condensed form the games to be played by the colleges of the "Big Six" and the "Big Nine."

September 25—East: Pennsylvania vs. Gettysburg.

September 29—East: Dartmouth vs. Massachusetts State; Harvard vs. Bates.

September 30—East: Yale vs. Wesleyan.

October 2—East: Harvard vs. Bowdoin; Cornell vs. Rensselaer; Dartmouth vs. Virginia; Pennsylvania vs. Dickinson; Yale vs. Syracuse; Princeton vs. Stevens, west; Illinois vs. Milliken; Minnesota vs. Iowa.

October 6—East: Princeton vs. Villanova; Yale vs. Holy Cross.

October 9—East: Cornell vs. Oberlin; Dartmouth vs. Bowdoin; Princeton vs. Fordham; Pennsylvania vs. West Virginia; Harvard vs. Williams; Yale vs. Springfield, west; Chicago vs. Indiana; Minnesota vs. Iowa, S. V. S.; Illinois vs. Kentucky; Wisconsin vs. Lawrence; Purdue vs. Northwestern; Michigan vs. Case.

October 16—East: Pennsylvania vs. Brown; Cornell vs. Fordham;

Dartmouth vs. Williams; Princeton vs. Sewanee; Harvard vs. Maine; Army vs. Yale, west; Indiana vs. Lake Forest; Northwestern vs. Beloit; Purdue vs. Monmouth; Chicago vs. Illinois; Michigan vs. Ohio; Minnesota vs. Nebraska at Omaha.

October 23—East: Harvard vs. Brown; Cornell vs. Vermont; Amherst vs. Dartmouth; Pennsylvania vs. Pennsylvania State; Princeton vs. Lafayette; Yale vs. Colgate, west; Illinois vs. Carthage; Wisconsin vs. Indiana; Marquette vs. Michigan.

October 30—East: Army vs. Harvard; Pennsylvania vs. Indiana; Cornell vs. Williams; Dartmouth vs. Holy Cross; Navy vs. Princeton; Yale vs. Amherst, west; Purdue vs. Illinois; Michigan vs. Syracuse; Minnesota vs. Chicago; Northwestern vs. Wisconsin.

November 6—East: Harvard vs. Cornell; Princeton vs. Dartmouth; Pennsylvania vs. Lafayette; Yale vs. Brown, west; Indiana vs. Illinois; Purdue vs. Wabash; Michigan vs. Notre Dame.

November 13—East: Cornell vs. Chicago; Yale vs. Princeton; Pennsylvania vs. Michigan; Harvard vs. Dartmouth, west; Purdue vs. Rose Poly.; Northwestern vs. Illinois; Wisconsin vs. Madison.

November 20—East: Cornell vs. Niagara; Yale vs. Harvard, west; Indiana vs. Purdue; Syracuse vs. Illinois; Chicago vs. Wisconsin; Kansas vs. Iowa; Minnesota vs. Michigan.

November 25—East: Pennsylvania vs. Cornell.

November 27—Army vs. Navy, at Philadelphia.

EPILEPSY CURED.

To Whom It May Concern:—I will say my wife had epilepsy or fits for thirteen years. I secured one bottle of Hays' Specific. She had two fits the day I got the bottle. She had from two to three fits a day. She has no more fits. I would not take ten times the cost of the medicine and be without it.

NO I. C. EXTENSION

PRESIDENT HARAHAN SAYS COMPANY IN GOOD SHAPE.

Will Not Have Car Shortage This Year As in Former Years—Number of Changes.

Hyannis, Mass., Aug. 30.—J. T. Harahan, president of the Illinois Central, who was here today, said that the Illinois Central is not contemplating the extension of its mile-ages during the coming year. "If the Harriman railroads are extending into the new regions, this will not reduce the general freight rates," said Mr. Harahan. "Any new railroads Mr. Harriman will build will only have a tendency to reduce the cost

of landing in the grain markets the crops of those farmers reached by the new lines. The general freight rates are now at a low level.

"The Illinois Central does not contemplate constructing any new branches or adding to its trackage during the coming year. We have a well developed system at present, better than ever before. In moving the crops this fall we will be able to eliminate that congestion which troubles railroads at this season and has troubled us in the past."

General Manager Harahan, of the Illinois Central, announced yesterday that G. H. Groce is appointed assistant to the general manager, with headquarters at Chicago. He will perform such duties as may be assigned to him. Effective September 1. The announcement likewise applies to the Yazoo and Mississippi Valley and the Indianapolis Southern. The positions of superintendent of telegraph are abolished. F. T. Wilbur is appointed superintendent of telegraph of lines north of the Ohio river, with headquarters at Chicago. B. Weeks is appointed superintendent of telegraph of lines south of the Ohio river, with headquarters at Memphis, Tenn. Charles J. Bour is appointed superintendent of station advertising with offices at Chicago. He will have jurisdiction over all stations and right of way advertising and vending machines and will report to the president.

Washington Once Gave Up to three doctors; was kept in bed for five weeks. Blood poison from a spider's bite caused large, deep sores to cover his leg. The doctors failed, then "Bucklen's Arnica Salve" completely cured me," writes John Washington, of Bosqueville, Tex. For eczema, boils, burns and piles it's supreme. 25c at all druggists.

Daily Thought.

Oh, well for him whose will is strong;
He suffers, but he will not suffer long;
He suffers, but he cannot suffer wrong.

—Tennyson.

Not so much strength to resist temptation, but more commonsense to avoid it, should be your prayers.

Oysters come in to fashion, school begins, the summer hotel landlord counts up the summer's profits and politics warms up next month.

If those shiprats continue increasing their speed and develop a capacity for carrying the mail, picture post cards may take the place of the greatly reduced code telegraph cipher in the business world.

E. H. Harriman, whose doctors prescribed absolute freedom from interrupted rest, may begin to understand that the stock market is more important than his own health. The effect of his physical condition on the stock market is the proof of his greatness; but it may be the death of him.

DOCTORING THE TRUSTS.

Those papers, who talked so bitterly about the inordinate greed of the rich and the depredations of great corporations, when the supreme court turned down Cleveland's income tax law, are having a hard time now getting right on Taft's corporate income tax, and the amendment to the federal constitution, authorizing a federal income tax, although the national platforms of both political parties favored the federal income tax.

The Cincinnati Enquirer, which has long been independent and anything but the organ of what the French would call the proletariat, sounds the slogan for them all. It denounces the federal inspection of corporation books as a flagrant governmental interference with private business, and the income tax amendment to the federal constitution as a violation of personal liberty and espionage of the Russian sort.

That is all right for the Enquirer, which is doing nothing inconsistent in assuming such an attitude. Always an advocate of the ancient Democratic idea of a loosened federal rein and the right of every man to do as he pleases, so long as he does not interfere with any other man's similar right, it has never rallied against the aggressions of the rich or the abuses of corporate powers.

But those papers, which have become hysterical over such national perils, cannot well adopt the Enquirer's view of the situation. They cannot propose a remedy for the trust, which does not presuppose a thorough understanding of the organic structure of the trust, its nature and methods, any more than a doctor could prescribe a cure without first taking the patient's pulse and temperature, sounding his or-

gans and inquiring into his temperament, exposure and environments. The corporation income tax gives federal access to the books. That is the means of ascertaining the physical condition of the trust. There is no other method of procedure, but it is against this procedure that the Enquirer inveighs with some degree of logic, we must admit, were the purpose less justified by public policy and the extent of the inquisition as serious as the Enquirer's tone would lead us to believe.

We have no fear that federal inspection of the books will set a precedent, which will lead to surveillance and espionage over every man's private business; for the very good reason that we are all in business and the government is but a reflection of ourselves, however much we may dislike the image we sometimes see in high places.

The trusts and the abuse of corporate powers, are but developments, natural and logical, of the decentralized government and the competitive system of doing business. The only remedy lies in a centralized government. Those, who cry out against the outrages of the system, must cease harping on state rights and scattered authority. It is among those disintegrated elements of scattered authority that trusts have been dodging and skulking these many years, and so long as authority is scattered they will continue to evade justice. These men behind the trusts are but men like us, after all; and if we would have them give up any measure of their personal liberty to do as they please, we must surrender in a corresponding degree the same measure of our personal liberty.

The Enquirer is logical in its position; but the Enquirer has no complaint against the trusts. It is expected, however, that its logic will appeal to others, who do not agree with the Enquirer's complacent theories of business and politics. There is the danger.

SOME STORIES AROUND TOWN

Pat Ross, a well known farmer of the county, tried the inevitable making a railroad talk, several days ago, but he met with the same misfortune that scores of others have found, and now has to dodge his friends in fear of their jests. Ross struck the idea that he knew how to make the engineers who are running surveys around Paducah, talk and open up their bosom secrets to him. He has a reputation of being a hale fellow, and can tell a story and spin a yarn in first-class style.

Early one morning this week he went to the camp of the engineers and soon with his stream of gab made friends with the engineers, who were jolly fellows, and proved royal entertainers. Pat thought he was progressing lovely, and at the psychological moment sprang the question as to where they were going to run the railroad, and everything about it.

One member of the party, answered, "Well, my friend, you have made yourself so agreeable that I am going to take you into my confidence and reveal our plans. We are sent here to make surveys for a branch of the Panama canal."

Since then Pat Ross has not been seen around the railroad camp.

The Rev. G. W. Briggs, one time pastor of the Broadway Methodist church, and the finest orator in the Southern Methodist church, is in the city for a few days. He is again on the lecture platform and is awaiting his manager. He is remembered by many Paducahans, besides the members of his church, as a delightful conversationalist, a gentleman of courtly manners and a silver-tongued orator.

Mr. F. P. Toof, manager of the Colchuck Manufacturing company, has returned from New England, where he contracted for some mill supplies, including novel machinery for making seine cord, a hard twisted goods, of which the plant will have an additional output of 150,000 pounds. The machinery will be delivered in November, according to contract. Only one concern in the United States now makes seine cord.

"I found New England busy and optimistic," said Mr. Toof. "I visited a number of manufacturing centers and found all the factories, both textile and machine, running to their full capacity and millions being spent in additions. Apparently those people believe the future demands exceed their capacity to supply and they are taking advantage of an easy money market. They talk in millions about their improvements. I saw several factories that are erecting additions, the equipment of which means an outlay of from two to four millions. One five-story addition will have sixteen acres of floor space, all to be occupied with machinery."

"It is encouraging and inspiring to visit those busy manufacturing centers. No dread of a financial relapse seems to haunt either the manufacturers or the Boston and New York financiers, who are furnishing the ready capital. Neither are there any indications of a speculative tendency in legitimate industry. The lesson of the recent flurry seems to have been learned."

"Eastern men are looking for the money market to tighten soon. Railroads that were paying big interest on short time loans are refunding their debts for as long time as pos-

CRAP SHOOTERS ROUNDED UP BY PADUCAH POLICE

Crap shooting and card playing seemed to be the style Saturday night and policemen rounded in eleven negroes, one of the number being dismissed in police court this morning.

He was Bud Bush, who happened to be watching the game at Madisonville.

Whitemore, Dennington, England and Carter ran into Walter Pleasant Bud Bush, Luther Dawson, Coleman Alexander, George Vaughan, Will King, Will Christ and Will Washington for rolling the bones, while Paulman Clark and Bryant rounded up Sam Wilson, St. Armstrong, and Robert Clark, who were playing cards.

Fireman Filled.

Detroit, Aug. 30.—Fireman John Brush was killed and three other trainmen injured when the Grand Trunk express train en route from Chicago to Port Huron collided with a work train near Capac. The passengers were thrown out of their berths but none were injured.

During the recent epidemic of typhoid fever in Madrid the discovery was made that it was customary at some of the hospitals to give to the poor the remnants of the dishes eaten by the patients.

RESIGNATION OF M'HARG ACCEPTED

ASSISTANT SECRETARY OF COMMERCE AND LABOR.

Nagel Talks to Taft on This Subject—McHarg Has Said Roosevelt's Policy Forest Conservation.

POLICY WAS TOO DREAMLIKE

Beverly, Mass., Aug. 30.—The resignation of Orasmus McHarg, assistant secretary of the department of commerce and labor has been accepted. Secretary Nagel discussed with Taft the question of McHarg's successor. Nagel has received a letter from McHarg saying that he would adhere to his first intention of remaining in the department only six months. This term will expire September 4.

Nobody here would say that McHarg's resignation was the result of McHarg's interview wherein he said that Roosevelt's policy of forest conservation was too dreamlike ever to be of practical value. McHarg was further represented as having said that perhaps Roosevelt thought himself equal to a worker of miracles.

Taft has been reluctant to take cognizance of the Pinchot-Ballinger controversy, but it seems now that he will take a hand in straightening out some of the misunderstandings.

QUEER CASE

FILED IN CIRCUIT AGAINST PROMINENT MEN.

Stockholders of Old Kentucky Manufacturing Company in Court.

Charging that they were compelled "by fraud, duress and undue influence" to sign two notes and a deed, John W. Bebout and Sophia L. Bebout have filed suit in circuit court against the Old Kentucky Manufacturing company to have the notes and deed cancelled. The charges are sensational, and it is promised that other suits will follow even against the stockholders of the company individually.

Bebout states he has owned 75 shares of stock, valued at \$80 each in the Old Kentucky Manufacturing company, which manufactured stock food and remedies. He was secretary and manager of the company and had charge of the business. On June 4, 1909, he alleges he was ill, and that H. R. Lindsey, president of the company, H. C. Overbey, vice president and Charles Alcott, treasurer, came to him and told him he had committed a felony under the state laws in the conduct of the business.

He says he was ignorant of the law and by the statements he was worried and incapable of acting with his mind. He alleges that the three stockholders and officers of the company said they would hush up the matter if he would make a note for \$4,449.96 in favor of the company and a note of \$750 in favor of the three stockholders individually, and turn over his stock to the company.

Also he says he deeded a lot in Thomson and Lindsey's addition to the company. Since he says he was not guilty of any felony or crime, and that notes and deed were "obtained by fraud duress and undue influence" and that he was distressed and had no knowledge of the law when the notes and deed were executed.

The defendants in the suit are well known. Mr. Lindsey is vice president of the E. E. Sutherland Medicine company and a former councilman. H. C. Overbey is vice president of the Paducah Banking company and Charles Alcott is secretary of the E. E. Sutherland Medicine company.

When seen today Mr. Lindsey said he was not familiar with the petition and declined to make any statement.

BIG FLOOD

(Continued from Page One.)

not as a result of the rise in the river, that is variously estimated at from \$1,000,000 to \$2,000,000.

The Monterey Steel plant, the only plant of its kind in the republic, and which cost originally \$10,000,000 to construct, is reported to have been damaged to the extent of from \$2,000,000 to \$3,000,000.

The electric light and street railway system of Monterey, a modern system in every respect, which was constructed about three years ago by a Canadian company in which the Mackenzies of Toronto, are heavily interested, was damaged to the extent of approximately \$1,000,000.

The Monterey water and sewerage system suffered a loss which is also estimated at \$1,000,000 or more. This damage together with the loss

INQUIRE OF THE PUBLIC

Through a SUN Want Advertisement.

resulting from the complete annihilation of approximately five thousand jacals or huts, adobe houses and some structures of more pretentious appearance, together with their contents, all ruined by the inflow of water, will bring the financial loss up to approximately \$7,000,000.

Details Are Meager.

While details are necessarily meager as to the financial loss and the loss of life, rumors are current variously placing the monetary losses at from \$7,000,000 to \$12,000,000, while the loss of life is placed at anywhere from 400 to 1,000 persons.

Both the electric light and street railway systems and the water works and drainage system were dominated by Canadian capitalists. A very hard, stiff fight was made by Canadian companies to secure concessions for the installation of these modern improvements a few years ago and their loss will be keenly felt and may possibly mean financial ruin to many individuals. Among one of the finer residences threatened by the flood, it is reported, was that of General Bernardo Reyes; but so far as can be learned the flood waters did not reach the section of the city where the governor resides.

Chaos Still Reigns.

Chaotic conditions still exist. There has been little effort made at recovery of cadavers; those who lost their lives were suddenly swept into the maelstrom and nothing could be done for them. However, every effort has been made to succor the needy by providing shelter and food for the men, women and children.

There has been a stream of moving all day on the part of the many residents of the city who are seeking homes on ground elevated enough to preclude any possibility of overflow. This is especially true of the American families, many of whom reside at the downtown hotel situated along the Plaza Zaragoza and Hidalgo. Many of these families have removed to remote sections of the city, although the locality is thought to be beyond the pale of possible inundation.

Police and Soldiers Busy.

The police, rurales and soldiers played a prominent part in guarding and caring for the city. All the police reserves were called into service; the rurales were busy and detachments of troops from the headquarters of General Trevino were utilized to secure shelter for the flood sufferers.

While as yet there is not a scarcity of food and the city is amply able to care for its destitute, there is fear of a shortage in the near future. There have been severe washouts all along the line of the National railway between Laredo and Saltillo, Mexico, and not a train has entered the city of Monterey either from the north or south for the last 72 hours. The through south-bound train from Laredo has been tied up at Monterey for that period of time, having succeeded in getting through before the disastrous washout struck the village of Golondrina and carried away a large portion of the railway tracks, while the north-bound train is tied up at Saltillo.

Wires Prostrated.

All wires over the National railroad were prostrated all last night and until late today, when a line was restored and it was learned that there is a possibility that the washed out tracks may be repaired and traffic resumed on a curtailed schedule today or Tuesday.

Hundreds of telegrams have been passing through en route to Monterey requesting information as to the fate of friends and relatives. Communication has been re-established via a circuitous route, and these telegrams are being answered as rapidly as possible. Their general import is, "Don't worry," "Am safe," "Am well

but many lives lost yesterday." None seem to be explicit and do not state the exact loss of life. There are some of a pathetic nature, however. They report the drowning of entire families, missing fathers, mothers, children and relatives, and undoubtedly bring the greatest sorrow or anxiety to their recipients.

While semi-official reports state that up to noon today 400 bodies have been recovered, there has thus far been no attempt to inter the dead. They are being placed along the banks of the river on the higher ground, where an improvised morgue has been constructed, and there await identification by loved ones.

The scenes attendant upon these trips to the morgue by those in search of missing loved ones is pathetic in the extreme. The bodies are guarded by soldiers, who escort any searcher for a missing friend or relative along the line of dead, and in many cases where the worst fears of the seeker are realized the guards have a trying ordeal on their hands caring for the hysterical.

Arrange to Bury Dead.

It is thought some arrangement will be made tomorrow to inter the dead. Those who have been identified by friends and relatives, while the unidentified, after every endeavor shall have been made to establish their identity, will be taken in hand by the city authorities and given a decent interment.

The severe torrents of rain which had been falling all morning ceased shortly after 1 o'clock, and the fear that the river would again rise to even greater heights was dissipated, thus in a measure relieving the prevalent anxiety.

It is estimated that the river has risen to a height of 50 to 60 feet, and until its waters recede there is little hope of finding the cadavers of the drowned.

Appeal to Washington.

It is understood that an appeal for aid has gone out from the city of Monterey. One statement is to the effect that Consul General Hanna has appealed to the authorities at Washington requesting that a general appeal be made by the federal government through the medium of the press requesting monetary assistance for the thousands of needy poor who have lost homes and chattels in the disastrous flood.

According to this information the consul made this appeal in the name of the American colony of Monterey.

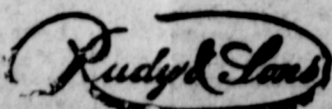

Monterey is one of the most progressive cities in the republic and is often referred to as the "Chicago of Mexico." Large amounts of merchandise, machinery and food products are imported to this city from the United States, it being estimated that 85 per cent of the population of the city are consumers to a greater or less extent of American goods. In view of this fact it is thought that the contributions for the relief of the stricken poor of the city will come in promptly and liberally.

San Antonio Contributes.

San Antonio, Tex., Aug. 30.—Winchester Kelsome, president of the San Antonio International club, telegraphed instructions to Ernesto Madero, a banker of Monterey, to draw on the club for \$500. This is the first relief which reached the flood of that city. Telegrams were received from P. F. Martine, presidente municipal of Monterey, expressing thanks for the aid and expression of sympathy from San Antonio.

An appeal to the public was issued by the International club today, and San Antonio will make an effort to alleviate suffering there to the greatest extent possible. In this the co-operation of the large Mexican colony of this city is expected.

Many Mexican residents of San Antonio wired relief to friends and relatives residing in Monterey.

COTTON CROP MAY BE SHORT

TWO WEEKS OF TRYING WEATHER CAUSING DETERIORATION

Hot Days, With Drying Winds and Cool Nights, Have Intensified the Effects of Lack of Moisture.

PLANT IS SHEDDING FREELY

Memphis, Aug. 30.—General deterioration in the cotton crop is reported this week save in North Carolina, Southern Georgia and sections adjacent to the Gulf of Mexico. Dry weather has prevailed for two to eight weeks and the plant is shedding freely. Hot days with drying winds and cool nights have intensified the effects of drought. In many sections there is a great deal of late cotton and this has suffered severely. The drought has been especially severe in Arkansas and Oklahoma and it is said that rains now would do little good there except to fill out the unmaturing bolls.

Cotton is opening rapidly, but picking will not become general over the belt before September 10 to 15. Where picking has made progress the new bales are being freely marketed.

There is a general disposition to modify crop estimates and make them lower than two weeks ago. In sections there are some promising crops, but they are a small minority. The prospects for a top crop are regarded as poor, although a late frost might increase the yield.

NEWS OF COURTS

Marriage Licenses.

Robert Hill and Harriette Boyd Smith, of Clinton.

Houston Grace, of Marshall county, farmer, and Eva Parish, of McCracken county.

In Circuit Court.

The will of Sarah Luftenburg was probated in county court this morning. She asked that all of her real and personal property be sold at either public or private sale, and that her son, Edward Luftenburg, be paid \$300 while the remainder of her estate be divided equally among her six children: Edward Luftenburg, Cornelius Luftenburg, G. Luftenburg, Charles Luftenburg, Mrs. John Ruby and Mrs. Rosa Burton. To her son, William Luftenburg, from whom she has not heard for seventeen years, she willed \$5. Her wearing apparel was willed to her two daughters. Her son, Cornelius Luftenburg, was made executor without bond, and he qualified this morning.

GRAY WOOD

DISMISSED AT HIS PRELIMINARY TRIAL.

Police Judge Cross Sets Free Lad Charged With Offense—Police Court Docket.

The trial of Gray Wood, an 18-year-old boy, charged with attempt to rape little Manila Bagley, the 8-year-old daughter of Mr. and Mrs. Hugh Bagley, residing six miles from Paducah on the Mayfield road, resulted in his dismissal this morning by Judge D. A. Cross in police court. The trial was called after all other cases had been disposed of and no one was permitted to remain in the court room with the exception of the witnesses, court officials and attorneys. County Judge R. T. Lightfoot represented Wood, who lives with Mr. and Mrs. Andy Whitlock.

Police Court.

The remainder of the docket read: Drunk—Willie Prather, fined \$1 and costs. Gaming—Will King, Will Washington, Will Christ, John Pleasant, Walter Pleasant, Bud Bush, Sam Wilson, St. Armstrong, Robert Clark, Luther Dawson and Coleman Alexander, each fined \$20 except Bush, who was dismissed. Breach of peace—Robert Digs, fined \$40; Z. Z. Chandler, fined \$15 on motion of the prosecuting attorney; Tom Pruitt, continued until this afternoon; Nathan Midgett and Nora Midgett, fined \$5 each. Breach of ordinance—Charlie Lee, fined \$20; Lizzie Bedford, continued until this afternoon; N. Kahn, Herman Friedman, Mike Iseman and L. Petter, continued. Immorality—Tom Pruitt and Pauline Chonault, continued until this afternoon. Housebreaking—Joe McKnight, continued until this afternoon. Vagrancy—Claude Craig, continued.

CAPTAIN KIRKPATRICK

WILL ARRIVE THURSDAY. Capt. George W. Kirkpatrick, U. S. A., chief recruiting officer of the Evansville district, will arrive in the city Thursday to receive the report of the local station for the past month and also to accept several recruits who are being held awaiting his arrival by Sergeants Blake and Kresky.

IN SOCIAL CIRCLES

Paducah Boy Will Marry Denver Girl.

Invitations announcing the approaching marriage of Miss Hazel Isabel Essler and Mr. Ray Hobson Bell have been received here. The ceremony will take place at 7:30 o'clock on the evening of September 8 in Denver, the residence of the couple, the Rev. Mr. Finch officiating. Following the wedding a wedding reception will be held from 8 o'clock until 10 o'clock at the home of the bride. The ceremony will be a modest home wedding with only the relatives and intimate friends present. After a bridal trip to Buffalo Fork the couple will be at home at 2426 Race street after October 1. Miss Essler is the daughter of Mr. John Frederick Essler and a pretty young woman of the brunette type. Mr. Bell is the son of Mr. and Mrs. Jesse Bell, of the Mayfield road. He removed to Denver two years ago, and is a successful young business man.

Picnic at Cold Springs.

Messrs. John Farr and George McFadden entertained a few of their friends with an outing to Cold Springs. A delightful time was had, many different kinds of amusements were enjoyed and a delightful lunch was served by the girls.

Entertained Friday Evening.

Kittenger entertained Friday evening with a social at the home of Mrs. Kittenger, 815 South Third street, in honor of Miss Mary Seshier, who has just returned from a several weeks' visit to Cincinnati, accompanied by her sister, Miss Lizzie Herber.

Will Farrow, who has just returned from Strong City, Kas., and Miss Robble Bell Tuck, of Central City, Games, cakes and ices were enjoyed throughout the evening. Those present besides the guest of honor were: Misses Susie Beyer, Lillian Mallory, Pearl Conley, Marmel Skinner, Laura Augustus, Messrs. Nelson Boaz, Henry Hale, Claude English, Walter Niemczyk, John Handridge, Daley Davis, Edwin Peak, Mr. and Mrs. Lon Seshier, Mr. and Mrs. Tom Ross, Mrs. Walters, Mr. and Mrs. Kittenger.

Miss Tuck was called home Thursday night by the illness of her mother, Mrs. Tuck, of Central City. Music was furnished the entire evening.

Paducah Girl Marries in Oklahoma.

The following society item in the Antlers, Okla., News-Record, will be of interest to Paducahans: "Miss Eula M. Sexton, of Paducah, Ky., who has been visiting her sister, Mrs. E. P. LeMaster, for the past three months, was married Tuesday morning to Mr. J. H. Nickles, of Paducah, Ky. Mr. Nickles arrived here from Portland, Oregon, Monday and secured license from Judge Davidson and Tuesday the twain were made one by Justice W. H. Carlisle. "They left on No. 5 Tuesday for Portland, Oregon, via San Francisco, where they will make their future home."

"Miss Sexton, during her short stay in our community, has made many friends and admirers, and the wedding was quite a surprise. The News-Record joins in congratulations."

Miss Sexton is the daughter of Mr. and Mrs. J. B. Sexton, of 927 Clark street, and is a well known and popular young lady. Mr. Nickles is a former citizen of Paducah, but recently has been living in Portland, Ore.

Newspaper Man Weds.

Miss Harriette Boyd Smith and Mr. Robert Hill were married yesterday afternoon at the home of the bride in Clinton. It was a quiet home wedding with only the relatives and intimate friends present, no invitations being issued. Mr. and Mrs. Hill arrived in Paducah last night, and will reside at 333 North Seventh street. The bride is the daughter of Dr. and Mrs. L. N. Smith, prominent citizens of Clinton, and she is a popular woman. Mr. Hill is on the staff of the News-Democrat, and since his residence in the city has made many friends.

Mrs. A. M. Peard, of Indianapolis, is visiting her sister, Mrs. L. J. Melton, of 1861 Monroe street.

Dr. C. E. Kidd left this morning for Hamilton for a brief visit.

Ex-Patrolman Aaron Hurley is seriously ill at his home on South Ninth street.

The three children of Mr. and Mrs. Herbert Barksdale, of South Sixth street, are suffering with diphtheria. Miss Valeria M. Kinsley, superintendent of Riverside hospital, will leave tonight for Philadelphia on a visit to relatives and friends and to spend her vacation.

Deputy Sheriff Gus Rogers will leave tonight for Louisville to attend the Democratic Jeffersonian barbecue.

Dr. Wallace Wilkerson visited relatives at Maxon Mills yesterday.

Mr. C. J. Abbott, route agent of the American Express company, left this morning on an inspection tour of the Louisville division.

Messrs. W. A. Berry and W. V. Eaton left this morning to attend the convention at Owensboro.

Prof. W. M. Patterson, who has been visiting his sister, returned to Seawane, Tenn., this morning.

Magistrate Charles W. Emery left this morning for Louisville. His office is open for business, however.

Dr. Victor Voris returned home this morning from Chicago, where he went last week on business.

Capt. James Koger returned last night from a trip to Nashville.

BUTCHERS GETTING ANXIOUS

People are eating more spaghetti—particularly Faust Brand Spaghetti, knowing it to be not only cheaper than meat and the equal of meat in nutrition, but the superior of meat as a food digested and productive of minimum body heat—a food that means hearty appetites at meals, and sustained energy between meals.

Faust Spaghetti also makes a strong appeal to the cook, for it can be served in such a variety of ways as never to tire the palate.

All enjoy it. Spaghetti Italian style—with tomato sauce, cheese, eggs, mushrooms, oysters—fried—in soup—as pudding—these are but a few of the suggestions found in the book of recipes sent free on request.

Clean—pure—American made. Five and ten cents per sealed package. All grocers.

MAULL BROTHERS, ST. LOUIS, MO.

Mr. Slavie Mail has returned home after a three weeks' visit to Chicago and northern resorts.

Mr. and Mrs. F. H. Watson and Master Cary Watson have returned to their home in Louisville, after several weeks' visit to Mr. and Mrs. Clay Wilkes, of West Monroe street.

Mrs. Alice Bettis, of Ripley, Tenn., returned home yesterday after a visit to her brother, Mr. W. L. Wilkerson, 326 North Fourth street.

Mr. and Mrs. H. A. Petter, of South Fifth street, returned home yesterday afternoon from a few days' visit in Dixon Springs, Ill.

Mr. and Mrs. Frank L. Scott, of Denver, Col., leave tomorrow for St. Louis, Mo., to reside. They have been living in Denver several months.

Mr. Jesse Loeb, who has spent six months traveling through Colorado, Mexico and Alaska will return home September 1.

Dr. J. A. Byrd, of Nashville, is visiting his aunt, Mrs. R. Herring.

Miss Arlie Bray, of Jackson, Tenn., is visiting Mr. and Mrs. George Walters, 1920 Broadway.

Miss Martha Cope has returned from Luka Springs, Miss.

Dr. R. E. Hearne has returned from the Pacific coast, where he has been the past three weeks on a pleasure and business trip.

Mr. and Mrs. Henry Rudy have returned from Michigan.

Miss Alys Hovious returned Saturday after a two months' visit to relatives in Evansville.

Mr. Earl Walters left yesterday afternoon for Nashville on business.

Mr. and Mrs. Adrain Tomb, 1609 Tennessee street, are the parents of a fine baby boy.

Mrs. D. A. Meacham, 610 North Sixth street, who has been at Dawson Springs for two weeks, has returned home. She was accompanied home by her husband, D. A. Meacham.

Master Aubrey Meacham remained in Princeton on a visit to Master Bodie Cunningham.

Mr. and Mrs. Charles Jennings returned this morning from Mayfield where they visited yesterday.

Mr. and Mrs. Adrain Tomb, 1609 Tennessee street, are the parents of a fine baby boy.

Mrs. J. L. Woodbridge, general foreman of the Illinois Central railroad at Princeton, returned to Princeton this morning.

Mr. and Mrs. J. F. Walker left last night for East St. Louis, Ill., where they will reside.

Miss Johanna Bos and brother, Mr. Herman Bos, of Evansville, spent Sunday with Mrs. Elizabeth Seek, 508 South Tenth street.

Mr. Ed Ovey left this morning for Kuttawa and Princeton on business.

Mr. and Mrs. Ed Deloach left this morning for Princeton, Kuttawa and Dawson Springs on business.

Misses Marjorie Bagby and Emma Boyd returned this morning from Smithland.

Attorney C. C. Grasmann has returned from Smithland.

Miss Bessie Snedley and her guest, Miss Lena Goodman, of Tiptonville, Tenn., and Miss Inez Bell and Mr. Ernest Bell returned today from Dixon Springs.

Mrs. James Koger and daughter, Mrs. Vernon Blythe, are expected home Thursday from a several weeks' trip to Niagara Falls and eastern resorts.

Dr. James Hearne accompanied home from Portland, Ore., James Welsh, who was ill of nervous trouble.

FEELING AGAINST ROYAL

HOUSE OF GREECE SHOWN

Athens, Aug. 30.—The immediate resignation of Crown Prince Constantinos as commander-in-chief of the Grecian army, is expected as the result of today's conference between M. Mavromichalis, new premier, and leading generals. The removals indicate the intense feeling against the royal household, including King George and it is believed to foreshadow a revolution. It is likely the new premier will grant all reforms demanded by the army to all of discontent. There is no punishment for the mutineers of Saturday.

Organ Recital.

Following is the program of organ recital Broadway M. E. church tonight at 8:30 under the auspices of the Ramsey society:

Free will offering.
Mr. Harry M. Gilbert, organist, assisted by Miss Anne Bradshaw, soprano; Mrs. Almo Hays Reed, soprano; Mr. Emmet S. Bagby, baritone; Mr. Karl Smith, cellist.

Abendlied, Schuman; Traumerel Schuman.

Warum, Tscholkowsky.
Anerkennung, Gabriel-Marie.
Serenade (cello obbligato) Schubert.
March, W. T. Best.

Bamboo trees begin to blossom when 30 years old.

PELLAGRA FOUND IN ILLINOIS BY STATE OFFICIALS

Peoria, Ill., Aug. 30.—Of the hundred and more pellagra sufferers under observation at the Bartonville asylum, fifty are said to be making favorable progress toward recovery although it is not certain that they can be cured as the dangers of relapses are unknown. Photographs of 24 of the patients have been made covering every known stage and symptom of the disease, and these will be used in the reports to Washington and to the Illinois state board of health.

A laboratory for the analysis of the disease in every stage is being hurriedly installed.

Superintendent George A. Zeeler of the general hospital, had the following to say regarding pellagra:

"Numerous calls from practitioners in this part of the state indicate that for years past cases have occurred within their practice which they now believe to have been pellagra. Hence the disease probably is not new in Illinois nor limited to this institution. The symptoms of a pronounced case are unmistakable. 'The symmetrical erythema, involving the back of the hands, the banded scald about the neck, the subsequent vesiculation and desquamation, the fiery red tongue, the spongy gums, the quick collapse, the mental torpor, the melancholia, all combine to form a clinical picture so clear as to be unmistakable.'"

"The recognition of the disease when these symptoms are absent is the problem that we are now trying to solve and which the government has detailed the ablest men in its medical corps to investigate."

HONORS FOR DEAD WIRELESS HERO BY HOME PEOPLE

Winnipeg, Man., Aug. 30.—Arrangements are completed for a state funeral for George A. Ecker, the wireless hero, who saved 300 lives on the Ohio, giving up his own when she sank in the North Pacific Thursday. Winnipeg was Ecker's home, and citizens are planning bringing the remains here to be buried with high honors. A public subscription is growing for a monument to be erected over his grave.

COUNTY ROAD WORK STOPS UNTIL DROUTH IS ENDED

Work on the county roads has ceased owing to the dry weather. John Thompson, county road supervisor, has quit work on the unimproved roads because of the thick dust and the fact that as soon as the roads are graded the wagons will tear them up. The contracts for repaving the gravel roads have been let, but the work will not begin until after a rain, as the gravel will not cement. The need of more gravel roads is felt now as on some of the unimproved roads the dust is four inches deep and it is impossible to ride a bicycle.

The Feature Event of the Season.

Wednesday night at 8:30 o'clock the steamer Dick Fowler will leave and remain in Metropolis one hour to see the railroad terminals and bridge site of Grand Trunk lines now at work.

The orchestra and vocalists will dispense strains of music delightful to the patrons of promenade deck and perfect for others to dance.

Bring your families as a three hour program has been arranged with every minute pleasant and the officers guarantee against all that's objectionable.

This is an opportunity for a full moonlight river ride and visit to the future great of Egyptian district for only 25 cents round trip. Arrive at Paducah at 10:45.

N. F. ROBERTS, Master.

Rupture Truss Specialist.

Mr. Seely, of Philadelphia and Chicago, to better meet his callers' requirements will remain at the Palmer House until Tuesday afternoon.

Atlanta, Ga.

MOTHER'S FRIEND

Centenary of the Christian Church.

Lexington, Ky., Aug. 30.—In celebration of the one hundredth anniversary of the founding of the Christian church there will be held in Lexington in September one of the biggest church conventions that ever took place in this state. The convention will open Monday, September 20, and will last five days closing Friday, September 24. It will be attended by about 2,000 church workers from all over the state and already preparations are being made to receive and entertain the many visitors.

Centennial celebrations do not occur during the lives of everybody and for this reason those church workers who have this great convention in charge are planning to make it a great celebration. Prominent speakers and evangelists from all over the country will be here and they will be on the program.

On Thursday, September 23, a monster parade of men from all over the state who are taking part in Bible class work will take place. This parade will be one of the features of the convention which will be held at the Woodland Auditorium.

The convention embraces three organizations of the Christian church each having its own special day with its own program. The convention begins Monday evening, September 20, with a splendid song service led by that prince of leaders, E. O. Excell. Mr. Hensley, a graduate of Transylvania, and a missionary to Africa for several years, will speak. Roger Clark, pastor of the Christian church, Maysville, Ky., will give the convention sermon. At the close of the evening sessions a half hour will be spent in a social time, friend greeting friend.

C. W. B. M. Sessions.

Tuesday morning, September 21, the twenty-seventh annual convention of the Kentucky Christian Woman's Board of Missions will begin its sessions at 8:45 a. m. An early hour but the day is so full of good things that no time can be lost.

All sessions will be held in the Auditorium.

The Centennial.

The Kentucky Centennial Work of the Christian Woman's Board of Missions has been directed to other fields. When the American flag, the beloved emblem of freedom was lifted over the little island of Porto Rico, over its ignorant superstitious, priest-ridden Spanish slaves, the board was invited to open a Protestant orphanage in the city of Bayamon, just across the way from San Juan. From this opening the work has grown until now two orphanages, one for boys and one for girls and evangelistic work is being conducted. The need of homes of worship was paramount. Kentucky chose to use \$10,000 in better equipment and a beautiful chapel, the first of all the centennial buildings to be erected was built by Kentucky and dedicated to the religion with an open Bible in March 1908. Miss Sally V. Ashbrook, of Cynthia, centennial secretary for Kentucky and the state secretary attended the dedicatory services. The Oriental work in Portland, Oregon will receive the remaining \$5,000 of Kentucky centennial offering.

NEW GOVERNOR'S MANSION SITE

REALTY COMPANY OFFERS FREE SITE TO COMMISSION.

Beautiful Location Overlooking Picturesque Kentucky River Chosen

AND THIS MAY BE ACCEPTED

Frankfort, Ky., Aug. 30. (Special.)—The question of where the governor's mansion is to be located will likely be settled within the next ten or fifteen days by the capitol commission, for Tom E. Bowman and D. Blane Shaw of the Bowman Realty company, which will sell the capitol heights property that surrounds the new capitol announce that they will offer to the commission its choice of any lot in the capitol heights property for the location of the governor's mansion. There is no doubt that the commission will accept this generous offer on the part of the real estate men, and the owners of the property who are W. W. Longmoor, of the Kentucky Historical society, Morgan Chinn, former clerk of the court of appeals, D. D. Smith, a rising young business man of this city, and Eugene Wallace one of Frankfort's capitalists.

The Capitol Heights property lies to the west and the south of the capitol grounds, surrounding the capitol in those directions. Slightly to the west and the south of the capitol is a small bluff about 100 feet in height. There are several hundred feet of ground between the capitol grounds and the bluff, however, that belongs to the Capitol Heights company, and it is this land that Architect Andrews who designed and built the capitol insisted on the former commission buying for the governor's mansion, and the former commission had about completed arrangements to take over the land when the election took the matter out of their hands. The new commission has had the consideration of the purchase of the land since, but for some reason they have never closed the deal, and now it is too late. The company had offered all this land, fifteen acres, to the state for \$15,000, but is confident that it will sell at public auction for \$25,000, and will donate to the state the site for the mansion.

The members of the company have talked to some of the members of the commission about the location of the new mansion. It is agreed that the most delightful and beautiful site for it is on the bluff overlooking the capitol, so that the front yard of the mansion will be the capitol lawn. The view from the bluff is the most picturesque in the city.

There is no difficulty in seeing four or five miles up the Kentucky river, and nearly that distance down the river. The entire city would be overlooked from the front porch of the mansion, and the country on the east side of the river could be seen for miles, so that no more beautiful place could be selected than on the bluff overlooking the new capitol.

Worth Picking Up.
Wheeling, W. Va., Aug. 30.—A trip to the Olympic games in Sweden with all expenses paid is the prize that will be given the winner of an amateur Marathon to be held here on September 11. Many prominent long distance runners are reported to have expressed their intention of competing.

There is another advantage in selecting a site in the new sub-division, for no matter how many years the mansion may be permitted to weather the storms of winter and summer the view will always be just as beautiful and unobstructed. Experience the dearest of all teachers, has taught the builders of mansions in Kentucky that progress is an irretractor of persons, and things, and that little regard is given the governor's mansion when railroads must be built and warehouses must be erected along railroads. There is not an hour of the 24 that it is pleasant to sit on the front porch of the present governor's mansion. There was a time however when the view from the front porch of the governor's mansion was the most beautiful around all Frankfort. The mansion was so erected that the governors of this commonwealth and their families could sit on the front porch and look up through a long valley to "Buffalo Trace," the pass through which the herds of Buffalo would come in making their way from the Blue Grass pastures of central Kentucky to the plains of Ohio and Indiana. The view also extended to the famous Cove Spring reservoir, the first reservoir west of the Allegheny mountains. There was nothing to obstruct the view then, but it was not many years until the walls of the penitentiary had to be extended, and they partially shut off the view. Later still it became necessary to construct a railroad from Frankfort to Georgetown, and it was built along the hillside in front of the mansion, and with the railroad came the freight depot, the warehouse, and factories, the undesirable tenement houses, and the this and that, until now the present governor's mansion is hemmed in by such buildings until the smoke from the engines, the dust from the roads of the freight depot, and the stench from the undesirable make the life of the first lady in Kentucky everything but pleasant. There has sprung up by the side of the present mansion, too, what is known as governor's alley, which is inhabited by negroes and undesirable whites, but the worst feature of all is the dust, dirt, the stench, and the undesirable business buildings. With the new

AFTER SUFFERING ONE YEAR

Cured by Lydia E. Pinkham's Vegetable Compound

Milwaukee, Wis. — "Lydia E. Pinkham's Vegetable Compound has made me a well woman, and I would like to tell the whole world of it. I suffered from female trouble and fearful pains in my back. I had the best doctors and they all decided that I had a tumor in addition to my female trouble, and advised an operation. Lydia E. Pinkham's Vegetable Compound made me a well woman and I have no more backache. I hope I can help others by telling them what Lydia E. Pinkham's Vegetable Compound has done for me." — Mrs. EMMA DISE, 833 First St., Milwaukee, Wis.

The above is only one of the thousands of grateful letters which are constantly being received by the Pinkham Medicine Company of Lynn, Mass., which prove beyond a doubt that Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, actually does cure these obstinate diseases of women after all other means have failed, and that every such suffering woman owes it to herself to at least give Lydia E. Pinkham's Vegetable Compound a trial before submitting to an operation, or giving up hope of recovery.

Mrs. Pinkham, of Lynn, Mass., invites all sick women to write her for advice. She has guided thousands to health and her advice is free.

mansion on the hill, overlooking the new capitol and directly next to it, the conditions could never be returned, and the governor's mansion would be the most desirable instead of the most undesirable place in Frankfort.

MORGAN'S YACHT HITS

Corsair, With Banker on Board, Was Badly Damaged.

New York, Aug. 30.—J. Pierpont Morgan's yacht, the Corsair, is under going repairs at Tietjan and Lang's dry dock at the foot of Seventeenth street, Hoboken, as the result of an accident on Tuesday afternoon while going up Long Island sound with Mr. Morgan on board. While proceeding up the sound the yacht struck on a shelf of rock near City Island, and several of her plates were stove on the starboard side forward and amidships. The vessel was damaged so badly that a boiler was shifted and the cabinet work in the cabin partly ruined. The yacht was taken to Hoboken, Mr. Morgan remaining on board, and docked at the Seventeenth street dry docks. After her plates have been repaired and seams tightened she will be taken to Fletcher's machine works at the foot of Thirtieth street, Hoboken, where the boiler will be repaired.

Tit for Tat.
An Irishman was sitting in a depot smoking, says the Kansas City Independent, when a woman came, and, sitting down beside him, remarked: "Sir, if you were a gentleman you would not smoke here."
"Mum," he said, "if ye wuz a lady ye'd sit farther away."
Pretty soon the woman burst out again.
"If you were my husband I'd give you poison."
"Well, mum," returned the Irishman, as he puffed away at his pipe, "if you wuz me wife I'd take it."

The fool who butts in where angels fear to tread usually get all that's coming to him.

CURTISS KEEPS UP WINNING STREAK

UNITED STATES GETS LION'S SHARE OF HONORS AT RHEIMS.

American Wins First In 20,000 Franc Prize For the Three Fastest Laps.

PENALIZED; WON IN A MINUTE

Rheims, Aug. 30.—The twilight vision of Paulhan's monoplane like a great white bird soaring above the plain, so high that it seemed to ascend above the rising moon, and the fleeting "golden flier," as Curtiss' machine has been dubbed, smashing another world's record, were the closing glories of aviation week. The victory of Glenn H. Curtiss, the sole American representative following his great winning of the international cup yesterday, gives the United States the lion's share of honors.

Today's Prix la Vitesse, of 20,000 francs, divided into four prizes, was distributed to the four machines making three rounds of the course thirty kilometers, at the greatest speed, the first prize being won by Curtiss, quite handily, notwithstanding his penalization.

Curtiss missed winning the first lap of the speed contest from Bleriot by a small margin. He captured second place in that event, which was over the full circuit of ten kilometers or 6.21 miles, making his total money winnings for the meeting 38,000 francs besides the international cup, which goes to the Aero club of America, inscribed with his name.

An accident removed Bleriot from today's speed contest. Bleriot had passed the first turn, when the rudder failed to respond. The machine turned completely over three times, landing with such force that the petrol tank burst, catching fire from the hot motor and enveloped the machine and pilot in flames. Bleriot had his face and hands burned, but not seriously.

Latham, with "number 13," started only four minutes ahead of Curtiss, who gave chase and overhauled Latham in every kilometre, finishing less than 40 metres behind the Frenchman.

Latham refused to accept defeat and brought out "number 29". With this he flew considerably faster.

The first round was covered in 7:48 2-5; the watches showed 15:37 4-5 at the end of the second round and snapped 23:29 at the finish. With his penalization Curtiss' time stood 25:49 2-5, and this gave him the race by almost a minute margin. Latham was second and Tissandier third.

The high altitude prize of 10,000 francs was won by Latham, who ascended 490 feet.

The passenger carrying contest was won by Farman. With two passengers he circled the course in ten minutes and 39 seconds.

The one lap speed contest went to Bleriot, who covered ten kilometres in 7 minutes, 47 4-5 seconds. Curtiss, second, 7:48 2-5.

Lady (on the bank)—My dear sir, how did you come to tumble in?
Man (in the water)—My dear madam, to be frank, I didn't come to tumble in—I came to skate.—The Bystander.

Many a man refuses to trust in the Lord as long as he has a dollar in his pocket.

Value of Sour Milk.
Most housewives do not know that sour milk is a preservative. Even oysters will keep in it for some time. A piece of beefsteak was found to be perfectly fresh after an immersion of four or five months. Prof. Elie Metchnikoff, of the Pasteur Institute, Paris, explains that the sugar in the milk encourages the growth of certain germs which form lactic acid. This acid destroys the germs of putrefaction. For this reason sour milk and buttermilk are often beneficial in alimentary disorders which are accompanied by bacterial infection. Sweet milk will not serve because the sugar is promptly assimilated and the friendly germs are without sustenance. On the other hand the casein of the milk remains and in it the bacilli of decay multiply. It is they which cause the class of symptoms known as biliousness.—New York Tribune.

Soldier Balks Death Plot.

It seemed to J. A. Stone, a civil war veteran, of Kemp, Tex., that a plot existed between a desperate lung trouble and the grave to cause his death. "I contracted a stubborn cold," he writes, "that developed a cough that stuck to me, in spite of all remedies, for years. My weight ran down to 130 pounds. Then I began to use Dr. King's New Discovery, which restored my health completely. I now weigh 178 pounds." For severe Colds, obstinate Coughs, Hemorrhages, Asthma, and to prevent Pneumonia it's unrivaled. 50c and \$1.00. Trial bottle free. Guaranteed by all druggists.

NEWS FORECAST FOR THE WEEK

NEWS REGARDING HARRIMAN
COMMANDS FIRST PLACE.

Doings at Beverly Will Also Be of
Interest—Proposed Increase in
Registry Fee to Be Debated.

DEMOCRATS WILL MEET, TOO

Washington, Aug. 30.—Develop-
ments at Harriman's magnificent
home in Arden will doubtless com-
mand the first position in the week's
news.

Beverly will continue to be the
scene of activities surrounding the
nation's chief executive. A definite
statement of Taft's wishes regarding
the amending of the interstate com-
merce and anti-trust laws will be
presented at New York by Attorney
General Wickersham to a commission
designated by the president to frame
them.

Postmaster General Hitchcock will
confer with a score of registry offi-
cials regarding some of his plans for
greater economy and higher effi-
ciency.

The proposed increase of the regis-
try fee to 10 cents recently will be
debated.

An announcement of the result of
the federal investigation into the con-
ditions at the Pressed Steel Car com-
pany's plant at McKees Rock, Pa., is
anticipated shortly.

Forty representatives of the Japa-
nese chamber of commerce are due
at Seattle Thursday and will soon be-
gin a journey throughout the coun-
try, inspecting the numerous features
of American civilization.

Moose and Engine Test Strength.

Though it is close season for hunt-
ing, the 11:15 express was not re-
sponsible for breaking the laws. About
one mile out of McAdam a fine
cow moose contested its strength
with the engine, resulting in the
noble beast's death. As it did not
fall from the fender the train was
stopped and the beautiful but much
damaged carcass was lifted off the
line to be claimed later on by the
game warden. It is supposed that
the flier drove the animals out into
the open.—St. John Sun.

AN UP-TO-DATE DRUGGIST
says it is surprising how many old-
fashioned remedies are being used,
which goes to show that it is hard to
improve some of our grandmothers'
old, time-tried remedies. For in-
stance, for keeping the hair dark,
soft and glossy, nothing equalling
our grandmothers' "sage tea" has
ever been discovered. Although, by
the addition of sulphur and other in-
gredients, this old-fashioned brew
has been made more effective as a
scalp tonic and color restorer. Now-
adays when our hair comes out or
gets faded or gray, instead of going
to the garden or garret for herbs and
making the "tea" ourselves, we sim-
ply go to the nearest drug store and
ask for a bottle of Wyeth's Sage and
Sulphur. This preparation is sold by
all leading druggists for 50 cents and
\$1 a bottle, or is sent direct by the
Wyeth Chemical Company, 74 Cort-
landt St., New York City, upon re-
ceipt of price. For sale and recom-
mended by W. J. Gilbert.

CODE CIPHERS

WILL BE AFFECTED BY NEW
RULE IN DECEMBER.

Was To Have Gone Into Effect On
September 1—Cuts Down
Words.

The application of the new rule
of the telegraph companies affecting
cipher messages which was to have
gone into effect September 1, has
been postponed until December 1.
This will be received with pleasure
by business interests of Paducah.

A large per cent of the business
telegrams sent and received by local
wholesale concerns are in cipher and
thus affected by the new rule which
prescribes only five letters to the
word instead of ten letters to the
word. If the telegram is built on
words which appear in the dictionary
they will not come under the new
rule and only domestic messages
will be affected. Cablegrams will be
governed as formerly.

The increase, according to the
authorities, will probably be in the
neighborhood of ten per cent.

The telegraph companies assert
that they have lost much money in
the past through the heavy cost of
handling arbitrary groups, words of
foreign languages and combinations
of letters which form unpronounce-
able words. Great difficulty, the
companies claim, is experienced in
the telegraph transmission of ridicu-
lous combinations. To the local
business houses using "fresh" codes
the increase will mean an additional
expenditure. Many foolish looking
and unpronounceable words like
"wishawereinkalamazoo" are used
and the decision to postpone the time
for the new rule to go into effect
was made by the Postal Telegraph
company and the Western Union
Telegraph company in order to give
the code word users the opportunity
to revise their ciphers if they so de-
sire.

Our Wars.
Not counting the numerous Indian
outbreaks that are not classed as
wars, this country has spent about
30 per cent of the 120 years since
1789 in war. The United States has
had six foreign wars and the great-
est civil war known to history. The
amount expended on American pen-
sions has been greater than the great-
est nations on their armies. In 1908
the United States disbursed in pen-
sions the enormous sum of \$153,
083,086, while the net cost of the
British army and its operations for
1908-'09 will amount to only \$138,
800,000.

The late M. Chaudard paid the
sums of \$160,000, \$200 and \$220-
000, respectively, for three of Mil-
let's paintings.

MARKED CHANGE IN SPECULATION

FOLLOW DISAPPOINTING REPORT
OF HARRIMAN'S HEALTH.

Outside Conditions Affecting Market
Remain Satisfactory to All
People.

HEARY CLEWS' WEEKLY LETTER

New York, Aug. 30. (Special.)—
A marked change has taken place in
the speculative sentiment. This was
brought about by the disappointing
condition of Mr. Harriman's health
after a trip abroad, the special pur-
pose of which was its restoration.

The reaction began in Union Pacific
and quickly extended to the remain-
der of the market. Stocks which suf-
fered most were those that previous-
ly led the advance. It was evident
that the market was ripe for a re-
action, and this fact had as much to
do with the decline as Mr. Harri-
man's health, concerning which there
was really nothing new to the well
informed. Nevertheless, the impor-
tance of Mr. Harriman as a factor in
the stock market cannot be disputed.
For a long time he has been the do-
minating element in the speculative
arena, but his operations in this field
are now undoubtedly closed, and it
is in this quarter that his withdrawal
from active affairs will be most no-
ticeable in the public eye. As to the
policies regarding his great railroad
systems, these are already well es-
tablished, and will probably be con-
tinued with but slight modifications
by thoroughly competent successors.
Some of these plans may be incom-
plete, or they may require readjust-
ment to change circumstances; and
the fact that his judgment and atten-
tion cannot be available at such a
time must affect the value of his se-
curities, particularly where they have
been inflated to ridiculous figures by
exaggerated expectations as to what
Mr. Harriman's speculative opera-
tions might or might not accomplish.

Railroad affairs are just now passing
through a remarkable change of de-
velopment in the section of the coun-
try served by the Harriman lines, and
in view of the growing rivalry of oth-
er systems, the diminution of Mr.
Harriman's activities will, of course
unfavorably affect his specialties.
Nevertheless, Union Pacific and South-
ern Pacific must continue to carry
freight and passengers, and the prob-
abilities are that their facilities in this
respect will be fully taxed as far in
the future as can be definitely seen.
The roads are in excellent condition
and quite capable of earning good
dividends and commanding fair mar-
ket prices strictly on their merits and
free of the fantasies and mysteries
associated with the Harriman regime.
It is of course, inevitable that in due
time Mr. Harriman's directive abili-
ties must entirely cease, and when
that contingency arrives it will, no
doubt, be found that it has been fully
discounted.

Fluctuations.
As previously intimated in these
advice, the market has been subject-
ed to violent fluctuations. The fact
that prices were much too high has
at last been recognized, and the fail-
ure of the big holders to successfully
unload any considerable portion of
their surplus securities cannot be
concealed. The public was well ad-
vised and did not come into the mar-
ket to any important extent, so that
recent losses will chiefly fall upon
the professional traders. As to how
far the decline will go, it is not pos-
sible at this writing to suggest. The
market is still in a very feverish
state and exposed to further sharp
breaks. At the same time the big
men have the situation well under
control, and it is within their power
to arrest the downward movement
whenever it best suits their purposes.
A market so largely under the con-
trol of artificial influences is neces-
sarily a dangerous one for the aver-
age operator, although less so than
before the decline set in.

Outside Conditions.
Outside conditions, to which the
market just now pays little attention
continue favorable. The volume of
business is steadily expanding. Re-
cent crop reports have not been quite
as satisfactory as last month, August
usually being a period of deteriora-
tion. Nevertheless, the outlook is
for the biggest corn crop on record
and the wheat crop is turning out
much better than expected. The dry
goods trade is in a very satisfactory
condition, and a large fall trade is
fully anticipated under profitable
conditions, although buyers are wise-
ly pursuing a conservative course in
view of the prevailing high level of
prices. The iron industry continues
active and the production of pig iron
in August promises to be the largest
on record. Construction work of all
sorts is being actively pushed in
nearly all parts of the country, and
labor is generally well employed at
good wages.

Money.
The monetary situation is also sat-
isfactory; loanable funds being
abundant at low rates. Time money
however, shows a slight hardening
tendency, and increased demands up-
on our money resources will be forth-
coming during the next few months
in connection with the big flotations
of new securities, negotiations for
which have already been completed.
These include the financing of the
Gould, Pennsylvania and other im-
portant railroad systems. The same

WANTED TO SEE WRECK.

Boys Placed Obstructions on Track
of I. C. Train at Kankakee.

Kankakee, Ill., Aug. 29.—An at-
tempt by four boys to wreck the Illi-
nois Central express due at Kankakee
at 11 o'clock this morning was dis-
covered in time to prevent the de-
railment of the crowded train. The
boys placed frog blocks and rail
braces at the switch south of town.
Wesley Smith, Sam and David Blatt,
Clayton Robertson, ranging in age
from 14 to 16, were arrested near
the scene. Admitting that they placed
the obstructions, they added that
they "just wanted to see a wreck."

LABOR DAY

STORM AT JOPPA REDUCED CROWD

BUT MANY EXCURSIONISTS ARRIVED IN PADUCAH.

Sunday Crowds Come in By Steamboat and Enjoy Sights of the City.

THOUSANDS WERE EXPECTED

A storm in the vicinity of Joppa, Ill., yesterday morning held back many excursionists and the number who came to Paducah by steamboat yesterday was not as large as expected. However, the crowd was estimated at 1,000 or more. They arrived at Joppa, Ill., over the C. & E. I. railroad, making connections there with the steamers Dick Fowler, Bettie Owen and George Cowling and arriving in Paducah about noon.

The streets were filled all afternoon and many flocked to Wallace park and other cool spots. The boats returned at 4 o'clock in the afternoon. Officials of the C. & E. I. railroad at Joppa, Ill., have announced that a similar excursion will be given in all probabilities in about three weeks. It is believed that the number of people would have exceeded 2,000 if the storm had not kept many at home.

Sunday merchants enjoyed good trade yesterday afternoon as well as livery stable owners. There were many strange faces and numbers who had never before paid Paducah a visit. From the indications and expressions everyone was delighted with the trip.

MRS. SKINNER

DIES OF TUBERCULOSIS AT SPRING BAYOU.

Wife of Lloyd Skinner and Woman of Many Lovable Traits of Character.

Mrs. Lessie Skinner, wife of Mr. Lloyd Skinner, a prominent farmer residing near the Spring Bayou church below Heath, died at 10 o'clock last night of tuberculosis, after an illness of one year. She was 28 years of age and was a Christian woman with a wide circle of devoted friends. She was born in Ballard county and had been a member of the Baptist church since early life. The funeral was held this afternoon at 4 o'clock, the Rev. Shoemaker, pastor of the Baptist church, officiating. The interment was at the church cemetery. Mrs. Skinner is survived by her husband, two children, one brother and one sister.

SOME FISHERMEN'S LUCK.

Several instances are reported of late where fish which have broken away have been rehooked and caught, one being a trout which had the old fly and cast in its mouth.

The other day a sea angler at Newhaven hooked the same conger three times, and twice had his tackle carried away. On safely landing the conger he found the hook and part of one of his broken lines attached to its tongue.

Quite a number of swallows have this season been unintentionally caught by anglers on the fly with worms, the result of the birds darting at the lures and hooking themselves, and one evening while an angler was after coine trout his rod came in contact with a large cat, bringing the creature to the ground and killing it.

And another unusual angling experience is reported from the Huntingdonshire Ouse. Omitting to bring his plummet, a St. Ives angler requisitioned a bicycle trouser clip, and while he was plumbing the depth a pike seized it and was hooked and safely landed.—London Globe.

Artistic Bath Rooms.

A well-to-do man whose new residence was recently completed hit upon a novel plan for decorating the bath rooms. In one of them the floors and walls represent the bottom of the ocean. Marine plants and fishes are painted on a dark green background. In the other both room the beach at Atlantic City is represented and among the crowd of bathers are the man and his family. The work was executed by a well known artist and the likenesses are good.—New York Sun.

The eyes of a chameleon move independently of one another.

FELL INTO A CHIMNEY

Fellow-Workmen See Rigger Lose His Balance.

New York, Aug. 30.—Half a dozen fellow workmen, on the top of a 215-foot chimney being erected for the new power house of the New York Central railroad at One Hundred and Forty-fourth street and the East river, the Bronx, were horrified to see Peter Hogan, a rigger, 35 years old, suddenly lose his balance and fall backward into the chimney. Their cries attracted the attention of workmen on the ground, and they called Policeman Ryan of the Alexander avenue station.

Ryan entered the Chimney through a hole in the bottom, where the boilers will be affixed eventually, and found Hogan unconscious and crushed and bleeding. Dr. Mooney of the Lincoln hospital found Hogan dead when he arrived.

Hogan was married and had three children. He lived at 508 Robbins avenue, the Bronx.

SUNDAY SCHOOL

WORK DISCUSSED AT MARION BY THE REV. G. W. BANKS.

He Will Deliver Two Addresses and Return in Time For His Conference.

The Rev. George W. Banks, pastor of the Fountain Avenue Methodist church left this morning at 11:25 o'clock for Marion, where he will be in charge of the Crittenden County Sunday School association, which convenes there today and tomorrow. This is the annual convention and a large and enthusiastic attendance is looked for. Tonight Mr. Banks will address the convention on "The Foundation and Essentials of a Successful Sunday School." Tomorrow morning he will make an address on "What the Association Means to the Individual Sunday School." He will return home tomorrow night in time to be present at the regular quarterly conference of the Fountain Avenue Methodist church Wednesday.

Woman Saves Drowning Boy.

Muskogee, Okla., Aug. 30.—After the boy's father had been sucked down in a whirlpool and drowned in the Grand river, near Wagoner, Okla., last night, Mrs. James Rooney, a Texas woman, swam into the treacherous current at the peril of her life and reached the six-year-old son of James Livingstone, a wealthy cattle man and former Texan. Livingstone swam into the center of the stream with the boy on his back. Suddenly Livingstone was sucked down. The boy helplessly floated in the swirling water until reached by Mrs. Rooney.

Passenger Train Hit Automobile

St. Louis, Aug. 30.—Five residents of St. Louis, four of whom are closely related, were killed when an automobile wherein they were riding was struck by a Rock Island passenger train near Virgus station, St. Louis county.

The dead are: Theodore F. Witte, and his 3-year-old son; Frederick O. Witte, Mrs. Carl Cling, Miss Haley Campbell.

Some men are not very enthusiastic about going to heaven. They they will be allowed to smoke in the other place.

QUALITY—That, in a word, is the secret of the high estimation in which this establishment is held by the discriminating.

If it's a gem you would buy, ours are first water—full value for your money.

WOLFF
JEWELER

REVIVAL BEGINS SUNDAY MORNING

BIG RINK MEETINGS OF ALL METHODIST CHURCHES.

The Rev. E. B. Landis, Pastor of Kentucky Avenue Church Takes Charge.

THE REV. C. E. JACKSON COMING

At all the Methodist churches yesterday large congregations gathered and the sermons pointed to the Brown-Curry meeting at the Auditorium rink that begins next Sunday at 10:45 a. m. Dr. Sullivan preached two practical and earnest sermons to large audiences. Dr. Banks' pulpit was occupied at 11 a. m. by Dr. A. E. Scott, of Reidland, who delivered a strong and forceful sermon. The Rev. "Cap" Owens preached two earnest sermons to his congregations and the interest was splendid. Evangelist Brown was in the city for a while this morning and passed on to St. Louis. He will return Saturday, Professor Curry, the singer, will arrive Thursday and get all things in shape for his choir. He wants five hundred voices. There will be three pianos, two cornets and a drum as attachments. The committees are all appointed and everything will be in readiness. Dr. J. W. Blackard is chairman of all the committees and will give general management. There will be excursion trains from the surrounding towns during the revival. Accommodations for several thousand people will be made at the rink and all the people are invited. Special and cordial invitations are made to every denomination to join in the gracious work.

New Minister Arrives.

Usual services were held yesterday at the Kentucky Avenue Presbyterian church. Mr. Pearson Lockwood filling the pulpit. At the morning hour a resume of the work completed in the past year was given and the outlook for the work of the new pastor, The Rev. E. B. Landis, of Neoga, Ill., will arrive tomorrow to assume the pastorate. In the evening Mr. Lockwood used "A Plea for Personal Work" as a theme. He discussed the reasons for doing personal work, and cited the example of Jesus in the case of Nicodemus and the woman at the well. Ways of doing the work he pointed out consisted of Christian living, which must be supplemented by speaking to people. He showed the necessity of preparation for doing personal work and that personal work counts for nothing unless one has the right spirit. Personal work must be done in the spirit of Christianity and for Him, he said. In conclusion he showed some of the results of doing personal work were touched upon briefly.

Services were held at the Cumberland Presbyterian church yesterday by the Rev. W. S. Wright in the morning, his subject being "What Is That and Thine Hand?"

Evening services were conducted by the Rev. T. H. Calhoun. The evening subject was "Prepare to Meet Thy God." Both services were well attended.

Sunday school at 10 a. m. Christian Endeavor at 7 p. m.

The Rev. Charles E. Jackson, pastor of the Tenth Street Christian church, is expected home Wednesday after a month's vacation at his home in Sandersville, Ga. He has been in charge of a protracted meeting at the Christian church in Paris, Tenn., for the past week and it will close tomorrow night. The attendance at the Sunday school of the Tenth Street Christian church yesterday was large. Only communion services were held.

Special music was enjoyed at the Broadway Methodist church yesterday. In the morning Mrs. Alma Reed, of Chicago, and Miss Mabel Shelton sang the offertories, while Mr. Robert Scott sang at the conclusion of the service. Mrs. Reed sang the evening offertory.

At the First Baptist church yesterday Dr. M. E. Dodd preached two excellent sermons to large gatherings. Dr. Dodd will preach a special sermon on next Sunday on "The Dignity and Profit of Labor." It is suggested by Labor Day and working men especially are invited.

There were two additions to the Second Baptist church yesterday and a large attendance was reported.

Mr. C. C. Wells, travelling Gideon, filled the pulpit last evening at the Fountain Avenue Methodist church, and a large crowd was present to hear him. In the morning the pulpit

was ably filled by the Rev. A. E. Scott, of Reidland district. The third quarterly conference of this church will convene Wednesday of this week.

Well attended services were held at the Twelfth Street Baptist church yesterday and the Rev. J. R. Clark's sermons were well received.

The services at the German Lutheran church were all well attended yesterday and the Rev. William Grother's sermons were well received.

No services were held at the German Evangelical church yesterday, as the Rev. William Bourquin is out of the city.

At the Third Street Methodist church yesterday the Rev. T. J. Owen preached to two large and interested congregations on the subject of "Sin, a Disease."

The Rev. E. T. Lewis filled his pulpit last evening at the Mechanicsburg Methodist church and preached on "Disappointments, and Failures." There was no service in the morning.

The clock in the tower of Columbia University, New York, is said to be one of the most accurate in the world, varying but six seconds a year.

Paducah	6.9	0.7 fall

The government gauge marked six feet and nine-tenths this morning at 7 o'clock, indicating a fall of eight-tenths of a foot in 24 hours. The stage yesterday morning at the same time was seven feet and seven-tenths. Weather clear and warm and business good.

ARRIVALS—Dick Fowler from Cairo at 8:30 o'clock tonight; George Cowling from Metropolis today at 9 a. m. and 3 p. m.; Bettie Owen from Brookport and regular Illinois landings this morning and afternoon on time; Ohio from Golconda this morning at 7 o'clock; Joe Fowler from Evansville yesterday morning on time; Electra from Shawneetown last night; Ollie from Elizabethtown yesterday afternoon with a barge of hay; City of Sallitio from Tennessee river at 7 o'clock last night; Reuben Dunbar from Nashville last night; Mary Stewart towing the showboat New Era from upper Ohio yesterday afternoon; W. T. Hardison from the lower Ohio yesterday afternoon.

DEPARTURES—Dick Fowler for Cairo at 8 o'clock this morning; George Cowling for Metropolis at 11 a. m. and 4:30 p. m.; Bettie Owen for Brookport and regular Illinois landings this morning and afternoon on time; Ohio for Golconda this afternoon at 2 o'clock; Joe Fowler for Evansville this morning at 11 o'clock; Ollie for Elizabethtown this morning; City of Sallitio for St. Louis last night at 8:30 o'clock; Reuben Dunbar for Clarksville at noon today; Mary Stewart and showboat New Era for Brookport this morning; W. T. Hardison for Tennessee river this morning; Egan for Caseyville mines yesterday morning. The Chattanooga will be the Evansville packet tomorrow.

The Joe Fowler brought in many round trip passengers from Evansville and way points yesterday besides a good freight list.

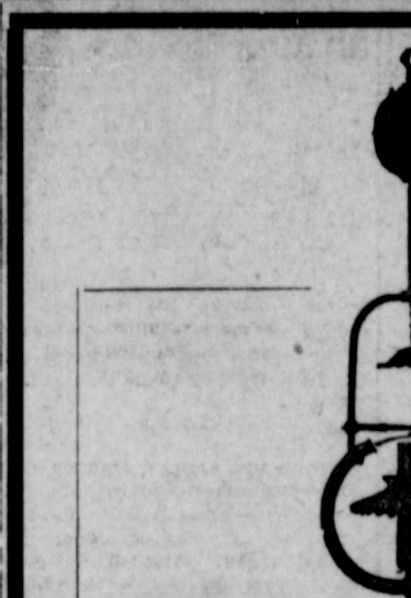

The Clyde is due tonight from Waterloo, Ala., and goes immediately to the lower Ohio to unload. She returns here and after receiving freight leaves Wednesday evening at 6 o'clock for the Tennessee.

The Reuben Dunbar will return from Clarksville Wednesday morning and leaves Wednesday at noon for Nashville.

The "Napalee" is a new motor boat which has been added to the mosquito fleet in the local harbor by Mr. Snyder, the chile parlor proprietor. It is a neat craft, 23½ feet long and will make good time.

The Louisville Herald says a six foot stage in the channel from Louisville to Evansville makes it pretty fair running for down-the-river boats.

The St. Louis Globe-Democrat says Capt. John E. Massengale, agent for the St. Louis and Tennessee River Packet company, is receiving large bookings for the City of Sallitio, which arrives there tomorrow. She will depart for Waterloo, Ala., Wednesday afternoon at 5 o'clock. With her cabin crowded with passengers and her decks stacked with freight and lumber she arrived in Paducah

THROW ON THE LIGHT

Your business principles may be right; your goods the best; your service to customers faultless.

But the Public has to know it. Have you told it?

Keep always your talking points before the public. Get in the glare of favorable publicity. Make known the merits of your proposition.

Success comes by focusing the diverging rays of public opinion—centering buyers' choice on what you have to offer.

Make your ability, your commodity, your service known by using one of our right-to-the-point Circulars or Announcements.

THROW ON THE LIGHT.

last night from the Tennessee river about 7 o'clock and left an hour later for St. Louis.

The towboat Mary Stewart, pushing the showboat New Era, arrived yesterday from the upper Ohio and went to Brookport this morning, where she gives a performance to night. She is en route down the Ohio.

The Electra has returned from Shawneetown, where she handled excursions during the four days' fair there. She will lay up here and run out moonlight and Sunday afternoon excursions occasionally.

Repairs to the Georgia Lee on the marine ways here are nearing completion and she looks pretty again. She will probably be let off the ways this week and will return to Memphis to resume her Memphis-Natchez trade.

Approximately 1,000 people were brought to the city yesterday by the steamers Dick Fowler, George Cowling and Bettie Owen from Joppa, Ill. The boats left here yesterday morning at 8 o'clock and after receiving the crowds returned here about noon. They left at 4 o'clock in the afternoon and returned at 8 o'clock last night.

Many pleasure seekers were out yesterday afternoon and night in gasoline launches which speckled the river around the harbor.

Capt. Henry F. Kath, of New Boston, Ill., arrived in the city yesterday and left this morning for Kuttawa to bring down a barge of mussel shells.

Capt. Henry Campbell went out as pilot of the Dick Fowler this morning, succeeding Capt. R. Ballows, whose health requires him to abandon the job. Captain Campbell recently returned from Florida, where he has been steamboating for several months.

The death of Sidney Smith, a pilot, occurred at Cairo Thursday, August 19. His wife lives at 3335 South Jefferson avenue, St. Louis. She left him at Cairo Tuesday in good health. The manner of his death is not known. Mr. Smith was 40 years old and had been a pilot for many years. He was employed by the Lee line boats in the early spring and later on the towboat John A. Wood, bringing coal from Cairo to St. Louis. He was a member of the Mississippi and Ohio River Pilots' society of St. Louis.

Work has been resumed on the dam opposite Louisville. It was stopped for a week on account of the rising water, but the river is low now and it is expected much headway will be made within the next several weeks.

Capt. Arthur Jones and wife are at Paducah, where the government steamer Titan, of which Captain Jones is master, is being repaired.

Capt. E. A. Voight and Messrs. George and W. F. Katterjohn went to Brookport in the Cutaway III yesterday morning to inspect lumber. The neat little gasoline launch of Attorney J. R. Grogan is undergoing

a general overhauling and when the improvements are completed it is believed the boat will be one of the speediest craft around here. The old engine is being replaced with a new three-cylinder Gray engine of 18-horse power. She will be repainted also.

The towboat Egan, of the West Kentucky Coal company, left yesterday for the mines at Caseyville with a coal digger and will bring back a tow of coal.

The Gallipolis Daily Tribune says: "A rumor is in circulation to the effect that another effort to form a grand and gigantic steamboat combination is under way. The scheme is said to have hatched at Pittsburgh, and the boats to be entered into the combination are the Queen City, Virginia, Kanawha and Ohio. The two former packets are to be run from Cincinnati to Memphis, and the Kanawha and Ohio from Pittsburgh to Cincinnati; that is, providing the promoter of the 'combine' doesn't again slip a cog and the deal fall through."

Lucille's Compliment.

Lucille, a carefully brought-up little girl of 5 years, returned from her first party in glee. "I was a good girl, mamma," she announced, "and talked nice all the time." "Did you remember to say something pleasant to Mrs. Applegate just before leaving?" her mother asked. "Oh, yes, I did," was the enthusiastic reply. "I smiled and said, 'I enjoyed myself very much, Mrs. Applegate. I had lots more to eat than I expected!'" —Woman's Home Companion.

COAL! COAL! COAL!

experience of ten years, handling coal from every mine accessible to Paducah, TAYLOR COAL has given the best satisfaction, and, as the consumer is the best judge and the one to please, we have decided to handle no other. Never clinkers; no slate, no slack; burns to a fine white ash and will beat any coal in the world for holding fire all night. We have found it the best, those that tried it found it the best, if you try it you will find it the best, and have no other. Be sure and get our prices before buying.

Now is the time to place your coal order for the winter. And every coal dealer will tell you his is the best. Unlike other dealers, we are not under salary or contract to sell coal from any one coal mine and to tell you it is the best; but an ex-
